CATALOG OF

MILLSAPS COLLEGE

Jackson, Mississippi

1948-1949

The Fifty-eighth Session Begins

July, 1949

FOREWORD

Experience indicates that those who examine college catalogs are usually interested primarily in finding the answers to the following questions:

(1) What is the general nature, type, and standing of the college?

(2) What are the requirements for admission?

(3) What is the cost of attending the college and what opportunities are available for earning part of these expenses?

(4) What subjects of study are provided and what are the requirements for graduation?

(5) What rules does a student have to follow while attending the college?

(6) What other activities are provided outside the classroom?

(7) What physical equipment and financial resources does the college have?

In order to make this catalog easier to read, we have tried to arrange it so as to answer these questions in logical order. The first two questions, which are of concern primarily to prospective students, are answered in Part I. The other questions are covered successively in Parts II-VI, as shown in the Table of Contents on the opposite page. In Part VII we have given the necessary information with regard to the trustees, officers, and faculty, and have listed the names of other staff personnel and of the members of the student body.

This catalog is primarily a record of the 1948-49 session of the college. The schedule of classes and academic calendar of the 1949-50 session will be found in the back.

"To be at home in all lands and ages; to count Nature a familiar acquaintance and Art a familiar friend; to gain a standard for the appreciation of other men's work and the criticism of one's own; to make friends among men and women of one's own age who are to be leaders in all walks of life; to lose one's self in generous enthusiasm and to co-operate with others for common ends; to learn manners from students who are gentlemen and gentlewomen, and to form character under professors who are Christian—these are the returns of a college for the best four years of one's life."

—President Hyde, Bowdoin College.

A SUMMARY OF PERTINENT INFORMATION

Admission Requirements: Graduates of an accredited high school with acceptable records showing 15 or more high school units will be admitted. Students who have not regularly prepared for college in an accredited high school or whose records are not acceptable may be admitted by examination. For details see pages 10-11.

Credit For Military Service: Veterans are granted 4 semester hours of credit for basic military training. Half of this substitutes for the required course in physical education and the other half counts as academic credit. Additional credit is granted for educational experiences in the armed services in accordance with the recommendations contained in the Guide published by the American Council on Education.

College Calendar 1949-1950:

Summer Session, May 31-August 6, 1949
Fall Semester, September 6, 1949-January 21, 1950
Spring Semester, January 24-May 29, 1950
For details see page 120.

Courses of Study: (1) General College Course leading to the B.A. or B.S. degree with a major in one of the following subjects:

Biology
Chemistry
Economics & Business Administration
Elementary Education
English
French
Geology
German
History
Latin
Mathematics
Music
Philosophy
Physics & Astronomy
Political Science
Psychology
Religion
Sociology
Spanish

(2) Pre-Professional Courses:

Pre-Dentistry
Pre-Laboratory Technician
Pre-Law
Pre-Medicine
Pre-Social Work

(3) Professional Courses:

Business and Economics
Chemistry
Geology
Physical Education
Preparation for Christian Work
Public School Music
Teaching

Expenses:

Tuition and Fees ..... $128 a semester
Laboratory Fee for Each Science Course ..... $6 a semester

Special fees are charged for courses in Fine Arts and Typewriting and for some courses in Education, Psychology, and Physical Education. For details see pages 17-18.

Living Arrangements: Dormitory rooms for both men and women are available at $37.50 to $50.00 a semester. Housing facilities are available for married veterans. All students rooming on the campus are required to pay a minimum of $105 board each semester. For details see pages 17-20.

Loans and Scholarships: See pages 21-23.

Length of College Course: A regular student who does not attend summer school will normally complete the requirements for a degree in four years, but by attending summer school he can complete the same course in three years. A student who maintains an average of "B" and attends summer school can complete the degree requirements in two and one-half calendar years.

Requirements for Degrees:

(1) A total of 128 semester hours of work including the following:

	B.A.	B.S.		B.A.	B.S.
English	12	12	Mathematics*	6	6
Foreign Language	12	12	Philosophy	6	—
Natural Science	6	18	Physical Education	2	2
History	6	6	Major Field	24-30	24-30
Religion	6	6	Free Electives	42-48	36-42

*Not required if the foreign language requirement is met by taking Latin or Greek.

(2) 120 quality points.

(3) A comprehensive examination in the major field.

(4) 30 of the last 36 hours of academic work must be done in residence except by students who transfer back the final 18 hours of work from graduate or professional school.

For details see pages 27-30.

Required Courses: All regular students are required to enroll for English, Mathematics, and a foreign language each year until they have completed the degree requirements in these subjects.

Transfer Students: Millsaps College normally allows full credit to transfer students on work taken at other accredited institutions. A maximum of 64 semester hours of credit is allowed from a junior college. For details see page 11.

MILLSAPS COLLEGE

is a church related college

under the joint care and control of the Mississippi and North Mississippi Conferences of the Methodist Church. The college is non-sectarian but devoutly Christian. During the 1948-49 session it numbered in its student body members of thirteen denominations and in its faculty members of four denominations. It is dedicated to the idea that education is an integral part of the Christian religion, that religion is a vital part of education, and that church-related colleges, providing a sound educational program in a Christian environment, afford a special type of training and influence which no other institution can offer. The existence side by side of educational institutions related to the church, the state, and private agencies, each with its own functions to perform, is not only evidence of democracy in our educational system, but is also the best possible guarantee of the preservation of democracy in our civilization.

is a small college

with enrollment limited to 800 students. The close personal relationship that exists among students, faculty, and administration in the small college is one of the most vital parts of the college experience.

is a co-educational college

with an enrollment approximately two-thirds men and one-third women. Boys and girls study together throughout grammar school and high school. Men and women work together throughout later life. They study and work together at Millsaps.

is a liberal arts college

with the primary aim of training its students for responsible citizenship and well-rounded lives rather than for narrow professional careers. One of the chief curses of our modern society is that so many of our people are expert lawyers, or doctors, or business men, or brick layers, without at the same time being good citizens. More than any other institution, the liberal arts college can remedy this defect by training its students, in whatever field of specialization they may choose, to be community leaders in responsible citizenship.

offers professional and pre-professional training

balanced by cultural and disciplinary studies. The college recognizes that in the modern world training which will enable a person to support himself adequately is an essential part of a well-rounded education. Therefore, the student at Millsaps can, for example, obtain the necessary courses to prepare him directly for a business career or for service in education, the ministry, or social work; he can study music as preparation for professional work in the field, as well as for its esthetic and cultural value; he can become proficient in shorthand and typewriting while at the same time studying language and literature; and he can obtain thoroughly sound basic courses which will prepare him for professional study in medicine, dentistry, law, and other fields. Professional leaders in all fields are coming more and more to recognize that the most valuable members of their profession are those who have had something more in their background of training than the narrow technical study necessary for proficiency in that field.

attempts to select its students carefully

not on the basis of ability to pay or previous opportunities or charm of personality, but on ability to think, desire to learn, good moral character, and intellectual maturity. The primary consideration in acting on all applications for admission is the ability to do college work in a measure satisfactory to the college and beneficial to the student. Tuition is kept low enough to make higher education available to all, but an attempt is made to keep admission requirements high enough to exclude those who cannot profit from it.

has a cosmopolitan student body

representing a wide geographical area. During the 1948-49 session eighteen states and four foreign countries were represented in the student body. It is the policy of the college to encourage by scholarships and otherwise the attendance of foreign students, because of the mutual contribution this can make to international good will and understanding.

is ideally located

in the capital city of the state. Many educational advantages may be found in Jackson in addition to the courses offered at the college. The State Department of Archives and History, the State Library, the Library of the State Department of Health, and the Jackson Public Library provide research facilities found nowhere else in the state. The Jackson Symphony Orchestra, Jackson Little Theater, and numerous musical, dramatic, and sporting events staged at the City Auditorium add materially to the cultural advantages available to the student.

is fully accredited

by all appropriate standardizing and accrediting agencies, both regional and national, and is recognized by the General Board of Christian Education of the Methodist Church as one of the strongest institutions in the connection.

Millsaps is fully approved by:

The Southern Association of Colleges and Secondary Schools
The Association of American Universities
The American Association of University Women
The University Senate of the Methodist Church

Millsaps shares in current educational thought through membership in:

The Association of American Colleges
The American Council on Education
The National Conference of Church-Related Colleges
The Association of Methodist Schools and Colleges
The Southern University Conference
The Mississippi Association of Colleges
The American Conference of Academic Deans
The American Association of Collegiate Registrars
The Southern Association of College and University Business Officers

REQUIREMENTS FOR ADMISSION

General Requirements

Millsaps College will accept as members of its student body only young men and women who are well qualified to benefit from the kind of academic life offered by the college. All applicants for admission must furnish evidence of

1. Good moral character
2. Sound physical and mental health
3. Adequate scholastic preparation
4. Intellectual maturity

Admission to Freshman Standing

Application for admission to freshman standing may be made according to either of the following plans:

1. By Certificate (When one has earned fifteen or more high school units):

Graduates of an accredited high school or secondary school may be admitted to freshman standing on presentation of a certificate signed by the proper authorities of that school, showing the kind and amount of scholastic work done, provided that:

(a) The student's record shows the satisfactory completion of at least fifteen acceptable units of secondary school work. (A unit means a subject of study pursued through a session of nine months with recitations five times a week, an average of forty-five minutes being devoted to each recitation).

(b) One-half of the units of secondary school work accepted for entrance must be in English, mathematics, and social studies or foreign language. These units should normally include three units of English, two units in mathematics, and at least two units of history, other social studies, or foreign language.

2. By Examination.

Students who have not regularly prepared for college in a recognized secondary school may apply for admission by making complete statement regarding qualifications and training. Such students may be regularly admitted if they qualify in a battery of achievement examinations given at the college under the direction of the Department of Education. These examinations are given on the scholastic work covered by the list of secondary units approved by the Southern Association of Colleges and Secondary Schools.

College Entrance Board Examination certificates may be accepted in place of high school certificates or examination by Millsaps College.

Admission To Advanced Standing

1. Millsaps College normally allows full credit to transfer students on work taken at other accredited institutions. Some courses which are not regarded as consistent with a liberal arts curriculum, however, may not be credited toward a degree.
2. Students with good records at non-accredited institutions may be admitted on probation, and the work done at such institutions will be validated if the student makes a satisfactory record the first year at Millsaps.
3. A maximum of 64 semester hours of credit will be allowed from a junior college.
4. Full credit is allowed for all junior college academic courses of freshman and sophomore level and full elective credit allowed for other courses, with the proviso that junior college transfers may be called upon to do extra work necessary to fulfill the requirements at Millsaps for majors, for pre-professional work, and for professional teaching licenses.
5. Grades and quality points made by students at other institutions will be recorded on their records at Millsaps, but students graduating after September 1, 1949, will be required to include in the 120 quality points required for graduation quality points earned at Millsaps at least equal in number to the number of hours credit remaining on their graduation requirement after the transfer credits are entered.
6. In the case of students transferring to Millsaps with more than 3 but less than 6 hours credit in a required subject, the head of the department concerned is authorized to approve a 3-hour elective in that department as a substitute for the remainder of the required course.
7. Credit will not be given for work done by correspondence.

Admission As Special Student

1. A special student is one who enrolls for less than 12 hours of work per semester or one who has previously received a baccalaureate degree.
2. For admission as a special student the candidate must be at least 21 years of age and must present adequate proof of good character and of maturity of training.
3. Special students may enroll for whatever courses they desire without regard to graduation requirements, but must in all cases meet the prerequisite requirements for the courses elected by them.
4. No special student shall be recognized as a candidate for any degree unless he shall have completed all entrance requirements at least one year before the date of graduation.
5. Special students are not permitted to represent the college in intercollegiate activities.

HOW TO APPLY FOR ADMISSION

All persons not in residence at Millsaps during the preceding regular semester must apply to the Admissions Committee and be accepted prior to registration for the fall and spring semesters.

A prospective student should apply for admission well in advance of the date on which he wishes to enter, particularly if housing accommodations on the campus are desired. The Admissions Committee begins acting on applications for the fall semester in February and on applications for the spring semester in November.

In applying for admission a prospective student should follow the procedure described below:

1. He should request an application blank from the Dean, who is chairman of the Admissions Committee.
2. He should fill out this application blank and return it to the Dean.
3. He should have a letter of recommendation sent to the Dean by an appropriate official of the school or schools he has previously attended, attesting to his character and ability.
4. He should have his high school principal or college registrar send an official transcript of his credits directly to the Dean. A separate transcript is required from every secondary school or college attended, even though credits previously earned are included on the transcript from the school last attended. A student who has already earned some college credit, however, need not have a separate transcript of his high school credits sent if these are included on his college transcript.

If the prospective student is in school at the time he applies for admission, he should have a transcript sent showing his credits up to that time. If he is accepted, a supplementary transcript will be required later showing the completion of his work.

THE COUNSELING PROGRAM

Each new student at Millsaps is assigned to a member of the faculty, who serves as adviser for that student. Efforts are made to give guidance in registration and adjustment to the college community, and to give counsel in dealing with personal problems as they arise. When the student chooses his field of major study in his sophomore or junior year, his major professor automatically becomes his faculty adviser. Tests and other personal data are used as a background for these counseling activities, which are continued throughout the student's college program.

A "Freshman Week" program is scheduled each year to assist new students in becoming oriented to college life. The program includes several psychological tests, tours about the campus and instruction in the use of the library, talks on study methods and problems of adjustment to college, and informal social contacts for the freshmen with each other,

with certain committees of upper-class students, and with the faculty. Its chief purpose, however, is to give guidance in registration and educational planning. Attendance at the Freshman Week program is required of all entering freshman students.

THE READING CLINIC

Experience has demonstrated that the accomplishments of students in their college work can be materially improved by improving their reading skills and that it is possible through directed practice to increase the reading speed of almost anyone. This is true of superior students as well as of their slower fellows.

In accordance with these findings, the college has set up a Reading Clinic, which operates separately from but in cooperation with the program in Freshman English. Members of the faculty specially trained in this field supervise this work.

Students may utilize the services of the clinic on a voluntary basis. Instruction is given in small groups for a period of several weeks, and individual attention is given to each student's particular difficulties. Drills in vocabulary building and practice in rapid reading are provided, and tests are made at intervals of each student's reading speed and comprehension.

THE HEALTH PROGRAM

Physical examinations are required of all new students as a part of the orientation program. These examinations are for the benefit of the student and for protection of the other members of the college community. They include chest x-rays, tests of vision, hearing, blood pressure, heart, dental examination, and other tests. No extra charge is made for these examinations.

Important physical impairments requiring correction which are revealed by these tests are called to the student's attention, and the records of the examinations are available to the instructors in Physical Education, the college nurse, and to the administrative officials of the college.

While the student is in residence every effort is made to protect his health and to promote his physical development. The work of the Physical Education Department, the intramural sports program, and the recreational facilities available on the campus contribute toward this end.

The college has set up a fully equipped infirmary with a registered nurse in attendance at all times to look after the health of the students. Space is available to isolate students with communicable illness in order that the health of other students living in the dormitories and fraternity houses may not be jeopardized. This service is paid for by a medical fee of $3.00 per semester charged to all boarding students.

The college physician makes regular visits to the infirmary at prearranged hours, and is subject to call by the nurse at other times when needed.

Tuition For Non-Resident (Or Out-of-State) Students

The charge for tuition to non-resident (or out-of-state) students shall be at the rate of $8.60 per semester hour.

All customary fees and laboratory fees will be charged to non-resident (or out-of-state) students in addition to the tuition of $8.60 per semester hour.

Millsaps College reserves the privilege to change any or all of the charges for tuition, regular fees, and special fees at any time without notice.

FINANCIAL REGULATIONS

The following regulations, adopted by the Finance Committee, are not subject to change, even by the President or Business Manager.

PAYMENTS.—All charges are due and payable at the opening of the semester. No student will be marked present in his classes until payment has been made in the Business Office or satisfactory financial arrangements have been made with the Business Manager of the college. It is recommended that students pay the $105.00 board in advance at the beginning of each semester and pick up meal books from the Business Office as needed. Students may, however, pay their board during the semester in $15.00 installments, except that the first such installment must be paid at the beginning of the semester. If the minimum of $105.00 per semester board is exceeded in the cafeteria, students may pay additional board in the Business Office in installments of $5.00 or $15.00 as they desire. Meal Books are used for the convenience of the students and are not transferable.

The fee for late registration is $1.50; this applies to any student registering after the last day officially set for registration. A delayed payment fee of $1.50 will be charged all accounts for the semester which are settled later than the final date officially set for payment. A student will not be charged a delayed payment fee if he pays a late registration fee.

Any accounts due for any preceding semester must be paid before a student will be enrolled for the succeeding semester. The Registrar is not permitted to transfer credits until all outstanding indebtedness to the college is paid in the Business Office.

No student will be allowed to graduate unless he shall have settled with the Business Office, one month before commencement, all his indebtedness to the college including graduation fee of $15.00.

VETERANS' PAYMENTS.—Veterans attending school under the Veterans' Bill of Rights will pay only the charges for room rent and board. All other expenses will be borne directly by the Federal Government.

STUDENTS ROOMING IN FRATERNITY HOUSES.—All students rooming in fraternity houses are required to eat in the college cafeteria. Rules regarding payment of board and medical fees applicable to other students will be observed by the students rooming in fraternity houses.

REFUNDS.—Room rent cannot be refunded after the semester has begun. Board will be refunded pro rata for the unexpired time. A student who withdraws with good reason within two weeks after the date of his registration will be entitled to a refund of 80% of tuition and fees; within three weeks, 60%; within four weeks 40%; and within five weeks, 20%. If a student remains in college as much as five weeks, no refund will be made except for board.

CHANGE OF SCHEDULE REFUNDS.—No reduction of fees or tuition will be allowed for any course dropped after two weeks from the date of registration in it.

The date of withdrawal from which all claims to reductions and refunds will be referred is the date on which the Registrar is officially notified by the student of his intention to withdraw from college. (See regulations relative to withdrawals).

AUDITING OF COURSES.—Courses are audited only with approval of the Dean. There will be no charge to a full-time student except laboratory fee for auditing any course. Special students taking other courses may audit one course without charge except for the payment of a laboratory fee that may be involved. A person not enrolled in any courses for college credit will be allowed to audit courses on payment of the tuition for Special Students and any laboratory fees that may be involved; no other fees will be charged. A student auditing the classroom work of a course and not auditing the laboratory work will not be considered as having a laboratory fee involved. A student auditing a course in which the laboratory work and classroom work cannot be separated will be required to pay the laboratory fee.

PURPOSE AND DISTRIBUTION OF THE STUDENT ACTIVITIES FEE

The student activities fee of $4.50 paid by a student at the beginning of each semester is distributed among the different organizations existing on the campus. The distribution of this fee is made on the recommendation of the Student Executive Board.

The student activities fee is distributed among organizations such as the Y. M. C. A., Y. W. C. A., The Student Association, Debate Club, Band, Glee Club, Dramatics, Purple & White, Bobashela, and The Woman's Association. That part of the fee assigned the Bobashela is a part payment for the student year book. The portion designated for the PURPLE & WHITE gives each student a year's subscription to the college weekly paper.

PHYSICAL EDUCATION FEE

Establishment of a carefully planned and effectively administered physical education program has now been effected by the college. In return for a physical education fee of $6.00 per semester the student receives the advantages afforded by the gymnasium as well as the supervision of a highly trained physical education instructor, who will plan a complete program of intramural athletics. Each student will also receive locker and towel service without additional charge.

SCHOLARSHIP AND LOAN FUNDS

Applications for all scholarship and loans should be made to the Chairman of the Awards Committee.

ENDOWED FUNDS

The income from the following funds may be used by the Board of Trustees to aid deserving applicants:

The Clara Chrisman Scholarship
The Peebles Scholarship
The W. H. Watkins Scholarship
The Marvin Galloway Scholarship
The J. A. Moore Scholarship

FRESHMAN SCHOLARSHIPS

The Board of Trustees has authorized the award of one four-year tuition scholarship valued at $500, one two-year tuition scholarship valued at $250, and one one-year tuition scholarship valued at $125. In addition, ten scholarships worth $75 each and twenty scholarships worth $50 each are awarded each year to graduates of Mississippi high schools upon recommendation of the Awards Committee. The awards are made on the basis of psychological examinations and interviews held at the college on High School Day, the last Saturday in April of each year.

SERVICE SCHOLARSHIPS

There are service scholarships in each of several departments, the holders of which are expected to aid the head of the department in some definite work. These scholarships are ordinarily open only to members of the upper classes. Application should be made to the chairman of the Awards Committee.

SPECIAL SCHOLARSHIPS

The Tribbett Scholarship

The student to whom the scholarship is awarded receives two hundred dollars, payable one-half at the beginning of the first semester and one-half at the beginning of the second. The award is subject to the following conditions:

This scholarship is to be awarded at the end of each session to the member of the sophomore or junior class whose quality index is highest for the year, subject to the following qualifications:

1. He must be a regular student with not less than thirty-two semester hours' work for the year, and must have made at least "C" in each of the subjects studied.

2. He must be qualified for and agree to perform work assigned by the president of the college.

John Rundle, Jr., Scholarship

The John Rundle, Jr., scholarship was created by his parents in memory of their son. This is a scholarship open to any student of Millsaps College, and the student to whom the scholarship is awarded receives $200.00.

Ricketts Scholarship

The R. S. Ricketts scholarship. This scholarship was created by Professor Ricketts' two sons and named for R. S. Ricketts, their father.

The W. H. Brewer Scholarship

The W. H. Brewer Scholarship was created by his son, Mr. Ed C. Brewer of Clarksdale and is open to any student at Millsaps College. The student to whom the scholarship is awarded receives $40.00.

Methodist Education Board Scholarships

The Methodist Education Board Scholarship provides tuition and fees for Methodist students who have ranked within the upper fifteen percent of their high school graduating class.

The James Hand, Sr., Scholarship

The James Hand, Sr., Scholarship has been created by James Hand, Jr., honoring his father of Rolling Fork, Mississippi.

The Sullivan Scholarship

This scholarship was established in memory of Dr. W. T. J. Sullivan and in honor of Dr. J. M. Sullivan, professor emeritus of Chemistry and Geology, to be awarded to ministerial students only. Dr. J. M. Sullivan's son, C. C. Sullivan, has recently made a generous gift to this scholarship fund and is becoming the trustee of the scholarship.

The Clara Barton Green Scholarship

The Clara Barton Green Scholarship was created by her husband, Wharton Green, of the Class of 1898, and their three children, Margaret G. Runyon, Clarissa G. Coddington, and Wharton Green, Jr. Mr. Green is identified with the consulting engineering firm of Carrillo & Green Associates, New York City. The student to whom the scholarship is awarded will receive $50.00.

The Mr. and Mrs. G. W. Mars Scholarship

The Mr. and Mrs. G. W. Mars scholarship was created by Mrs. Mars and her three sons, Norman, Henry, and Lewis of Philadelphia, Mississippi and daughter, Mrs. D. W. Bridges of Athens, Georgia. The amount of the scholarship for 1948-'49 is $25.00. It will increase $25.00 each year until 1956. After 1956 it will be $250.00.

Wharton Green '98 Scholarship

On the 50th anniversary of his graduation Mr. Green established a $5,000.00 fund at Millsaps College. The income from this fund will be given annually to a student selected by the awards committee of the faculty.

Huddleston Scholarship

Mrs. Bert W. Stiles, the daughter of the late Professor G. W. Huddleston, established scholarship in memory of her father and brother, George B. Huddleston. Mrs. Stiles and her brother are graduates of the college. The scholarship will amount to $25.00 the year.

The Kenneth Gilbert Loan Scholarship

Mr. and Mrs. T. A. Gilbert, Meridian, Mississippi, are endowing a loan scholarship as a memorial to their son, Kenneth, who lost his life in World War II.

OPPORTUNITIES FOR PART-TIME EMPLOYMENT

In addition to the scholarships described above, numerous opportunities exist on the campus and in the city for the employment of students who find it necessary to earn a part of their expenses. Such students are given an opportunity to file their names in the Registrar's Office and are referred to prospective employers.

REQUIREMENTS FOR DEGREES

1. Minimum Requirements for All Degrees:

	Sem. Hrs.
English 11, 12 and 21, 22	12
*Foreign Language—2 years in one language	12
History 11, 12	6
Natural Science (Botany, Chemistry, Geology, Physics, or Zoology)	6
Religion 11, 12	6
Mathematics 11, 12 (not required if the foreign language requirement is met by taking Latin or Greek)	6
Physical Education	2

Comprehensive Examination in major subject, taken in the senior year.

2. Additional Requirements for B.A. Degree:

Philosophy	6
Electives to total	128

3. Additional Requirements for B.S. Degree:

Three of the following sciences:

Chemistry 21, 22	8
Biology 11, 12 or 21, 22	6
Geology 11, 12	6
Physics 11, 12 or 11A, 12A	6 or 8
Electives to total	128

4. Art and Music Credit.

A maximum of twelve hours of Art will be accepted toward a degree. A maximum of forty-two hours of Music will be accepted toward a degree.

5. Residence Requirements:

One year of residence is required for graduation from Millsaps and 30 of the last 36 hours of academic work must be done in residence. The only exception allowed to this rule is in the case of students leaving to enter graduate or professional school, who may transfer back the final 18 hours of work. In this case, however, residence will be required at Millsaps for the second semester of the Junior year and the first semester of the Senior year.

Three summer sessions will be considered as equivalent to one year of residence required.

---

*If a student has two high school units and continues the same language in college, he is required to take only the foreign language 11-12 courses (6 hours).

6. Extra Curricular Credits:

The following extra curricular activities to a maximum of eight semester hours may be included in the 128 semester hours required for graduation:

Physical Training (Required)	2
Physical Training (Elective)	6
Purple & White Editor	4
Purple & White Bus. Mgr.	4
Purple & White Dept. Editors (four)	6
Purple & White Reporters (four)	6
Bobashela Editor	4
Bobashela Business Manager	4
Players	6
Millsaps Singers	6
Debate	6
Typewriting	4
Band	6

(Only one semester hour in each activity may be earned in each semester, except by the editor and business manager of the Purple & White and the Bobashela).

7. Majors:

In addition to taking the prescribed work for the degree, the student must major in one of the following departments:

Biology.—A student majoring in Biology should take 11-12, 21-22 and 42 and elect any other courses to total at least 24 semester hours.

Chemistry.—Required courses for a major in Chemistry are Chemistry 21-22, 31-32, 41, 61, and 71. Majors are advised to take both differential and integral calculus.

Economics and Business Administration.—An Economics major is required to take Economics 21-22, 31-32, and at least eighteen additional semester hours in the department. Courses in shorthand and typewriting are not counted toward fulfillment of this requirement.

Elementary Education.—Students majoring in Elementary Education are required to earn a total of 24 semester hours in this field, including Psychology 11-12; Psychology 31; Education 21-22; Education 91-92 and Education 101. Physical Education 62 and Courses in Public School Music for the Elementary School and Art are strongly recommended for Elementary Education majors.

English.—An English major is required to take English 11-12 and 21-22. In addition the student must take twelve semester hours from the following group of courses: English 31-32, 41-42, 61-62, 71-72, 81-82, 91-92, 111, 121, 131-132.

French and Spanish.—For students majoring in either of these subjects no one course is required with more emphasis than the others. Such students are urged to take every course in their major subject which they can include in their schedules. A minimum of 24 semester hours is required.

Geology.—To major in Geology a student must take Geology 11-12, 31-32, and 51, and 9 semester hours selected from Geology 21-22, 41-42, and Geology 52.

German.—Any Courses totaling 24 semester hours will be accepted.

History.—Any courses in this department totaling at least twenty-four semester hours will be accepted for a major in History. A preliminary test must be passed at least one semester before the comprehensive examination.

Latin.—To major in Latin a student is required to take Latin 11-12, 21-22, 31-32 or 41-42, 52, and either 61 or 62.

Mathematics.—For a major, Mathematics 11-12, 21-22, and 31-32, are required; nine semester hours selected from the other courses given in the department must also be taken. An additional six hours is strongly recommended.

Music.—See listings under the Department of Fine Arts, page 49.

Philosophy.—Any courses in this department totaling at least twenty-four semester hours will be accepted for a major.

Physics and Astronomy.—Students majoring in these two subjects should take General Physics, Astronomy 11-12, and additional work in other courses to make a total of twenty-four semester hours. Physical Chemistry may be counted toward a major.

Political Science.—Students majoring in Political Science are required to take twenty-four semester hours in that field, including Political Science 21 and 22.

Psychology.—Students majoring in Psychology are required to earn a total of twenty-four semester hours in this field, including 11-12. Courses in Zoology, Physics, and Statistics are strongly recommended for Psychology majors.

Religion.—Religion 11 and 12 are required of all students. In addition, majors in Religion are required to take the following: Religion 41, 42, 51, 52, 71, and 72. (Philosophy 41 may be substituted for Religion 52).

Sociology.—Majors in Sociology are required to take Sociology 11-12, Sociology 102, and fifteen additional semester hours in the department.

Students may be permitted to major in a subject only after careful consideration and with the consent of the head of the department.

A major for each student shall be approved by one of the department heads not later than the beginning of the junior year. Two cards

shall be signed by the major professor to show approval of the choice of a major, and these cards shall be kept on file, one with the Registrar's Office and one with the major professor.

No junior or senior registration shall be accepted as complete by the Registrar's Office without the signed approval of the major professor.

For failing to maintain a C average or for other good cause, a student may change his major or be advised by his major professor to change his major as late as October 1 of his senior year. He must submit to the Registrar's Office on regular form (obtainable from the Registrar's Office) the express permission of both the Dean and the head of the proposed new major department.

Transfer credit will be accepted toward a major only with the approval of the department.

8. Comprehensive Examinations:

Before receiving a bachelor's degree the student must pass a satisfactory comprehensive examination in his major field of study. This examination is given in the senior year and is intended to cover subject matter greater in scope than a single course or series of courses. The purpose of the comprehensive examination is to coordinate the class work with independent reading and thinking in such a way as to relate the knowledge acquired and give the student a general understanding of the field which could not be acquired from individual courses.

Regularly scheduled conferences between department heads and students majoring in the department will be held throughout the senior year. The comprehensive examination requires at least three hours and is part written and part oral, the division of time between the two to be at the discretion of the members of the department concerned. The oral examination will be conducted by a committee composed of members of the department and, if desired by the department, one or more members of the faculty from other departments or other qualified persons.

The time of the comprehensive examination given in the spring semester is the first week in May of each year. Comprehensive examinations will not be given during the summer except by permission of the Dean.

Those who fail a comprehensive examination may have an opportunity to take another examination after the lapse of two months. If the student fails the second comprehensive, he may not have another until he has taken at least one additional semester's work in Millsaps College.

COURSES REQUIRED FOR REGULAR STUDENTS

A regular student will be required to enroll for English, Mathematics, and Foreign Language each year until he has completed the degree requirements in these subjects. This rule does not apply to the summer session, or to students entering the second semester if the appropriate courses are not offered at that time.

Students who wish to prepare for a professional career in Social Work should plan a broad liberal arts program with a major in a social science. Because of the widely varied opportunities in this field, no specific schedule of courses is recommended for the junior and senior years. Instead, each student is urged to consult with his faculty adviser to plan a schedule especially adapted to individual objectives and aptitudes.

TEACHER PLACEMENT BUREAU

A teacher placement bureau for teachers is maintained under the direction of the Department of Education. It seeks to further the interests of teachers trained at Millsaps College and to be of service to school officials who wish to secure efficient teachers.

MILLSAPS-BELHAVEN COOPERATIVE PROGRAM

Students at Millsaps College are permitted to enroll for one or more courses at Belhaven College as a part of their regular program of studies. The two colleges are located only a few blocks apart, and the schedules have been coordinated so as to make possible this exchange of students between the two campuses.

As a result of this policy, students now have a wider range of departmental and course offerings from which to choose. For example, a student at Millsaps wishing to take courses in Home Economics might obtain such courses on the Belhaven campus while pursuing a regular course of study leading towards a Millsaps degree.

There is also a sharing of the physical and other facilities of the two schools. Students at each institution may check out books from either of the college libraries. The Belhaven swimming pool and the Millsaps golf course are available to students of both schools.

The following courses not offered at Millsaps during the 1949-50 session are available to Millsaps students on the Belhaven campus:

Art 215—Art Appreciation. No prerequisite. MWF, 12:00. 3 sem. hrs., 2nd sem.

Art 351—Art Education. (A course designed for students preparing to teach in the public schools.) Prerequisite, Introduction to Psychology and Educational Psychology. MWF, 12:00. 3 sem. hrs., 1st sem.

I DEPARTMENT OF ANCIENT LANGUAGES

PROFESSOR HAMILTON ASSOCIATE PROFESSOR COULLET

The ideas and culture of Greece and Rome live on today in their contributions to the culture of Western Civilization. Intimate contact with the very words which express the aspirations of those great spirits whose influence has been so abiding and formative in the modern world should help shape the student's character to fine and worthy purposes. Furthermore, this undertaking affords a most rigorous exercise in the scientific method, producing habits and reflexes of accuracy, efficiency, and system.

LATIN

A-1, A-2. Elementary Latin.—Designed for students who have undertaken no previous study of the language. Mastery of declensions and conjugations, of syntax and sentence structure; familiarity with the Latin thought order and the technique of translation. A large amount of easy reading is required. Vocabulary is enlarged and sight reading is practiced during the second semester. Six hours credit. Mrs. Coullet.

11-12. Intermediate Latin.—Continual review of forms, syntax, and sentence structure, as well as their application. Enlargement of the vocabulary. Translation and sight reading of a large amount of material, including selections from Ovid, Cicero, and Vergil. Six hours credit. Mrs. Coullet.

21. Horace, Odes and Epodes.—This course is designed to give the student an appreciation of the place occupied by the poet not only in his own environment and age but through the centuries, and to create an intelligent appreciation of his poetry. Three hours credit, first semester. Dr. Hamilton or Mrs. Coullet.

22. Plautus.—The student is introduced to Roman comedy and its Greek background. Wide reading in this period of literature is required. Two plays of Plautus are read in the Latin and several in translation. Three hours credit, second semester. Dr. Hamilton or Mrs. Coullet.

32. Classical Archaeology.—This course attempts to visualize ancient classical civilization and may be elected by those who are not taking formal courses in Latin and Greek translation. It consists of lectures and outside reading supplemented by lantern slides. Two hours credit, second semester. Dr. Hamilton.

41. Roman Private Life.—A course of study designed to familiarize students with the every day life and habits of the Romans. Given in alternate years. Three hours credit, first semester. Mrs. Coullet.

42. Mythology.—A study of the ancient myths of Greece and Rome and their influence on later literature. Given in alternate years. Three hours credit, second semester. Mrs. Coullet.

61. Survey of Greek and Roman Civilizations.—Reading of literatures in translation. Study of Greek and Roman remains as well as private and public life. Lectures and outside readings supplemented by lantern slides and films. 3 hours credit, first semester. Dr. Hamilton.

GREEK

A-1, A-2. Introduction to Greek.—Attention is paid to the thorough mastery of forms, vocabulary, and syntax, but emphasis is laid also upon the great contributions made by the Greeks to Western civilization in the fields of art, literature, and philosophy. Six hours credit. Dr. Hamilton.

11-12. Xenophon's Anabasis.—Two books of the Anabasis and Plato's Apology and Crito are covered during two semesters. Selections from the Greek New Testament are sometimes read in this course. Six hours credit. Dr. Hamilton. Offered 1949-50.

21-22. Plato.—Phaedo and parts of the Symposium and Xenophon's Memorabilia are covered in the two semesters. Six hours credit. Dr. Hamilton. Offered in 1949-50.

31-32. Greek New Testament.—Offered in alternate years. 6 hours credit. Dr. Hamilton. Offered in 1948-49.

II DEPARTMENT OF BIOLOGY

PROFESSOR RIECKEN PROFESSOR GIRVIN

11-12. A Survey of the Plant Kingdom.—Structure and physiology of seed plants, life cycles, and development of lower forms. The fundamental principles underlying all life phenomena are stressed. Two recitations and one two-hour laboratory a week. Six hours credit. Dr. Riecken.

21-22. A Survey of the Animal Kingdom.—Invertebrate and vertebrate animal structure and physiology. The fundamental principles of life phenomena are stressed. Two recitations and one two-hour laboratory a week. Six hours credit. Dr. Girvin.

31-32. Vertebrate Anatomy.—For pre-medical students and biology majors. This course must be taken concurrently with 21-22. Special emphasis on dissection of vertebrate forms. One two-hour laboratory a week. Two hours credit. Dr. Girvin.

41. Elementary Bacteriology.—Preparation of media, culture methods, sterilization, isolation, staining, and identification of microorganisms. Prerequisite: Biology 11-12 or 21-22. One recitation and one four-hour laboratory a week. Three hours credit. Dr. Riecken.

42. Comparative Anatomy.—A comparative study of vertebrate structures. Prerequisite: Biology 21-22. One recitation and one four-hour laboratory a week. Three hours credit. Dr. Girvin.

51. Histology and Microtechnique.—Study and preparation of temporary and permanent microscopic sections of plant and animal tissues. Prerequisite: Biology 11-12 or 21-22. Given in alternate years. One recitation and one four-hour laboratory a week. Three hours credit. Dr. Girvin.

52. Genetics.—Principles of inheritance in plants and animals. Prerequisite: Biology 11-12 or 21-22. Given in alternate years. Three recitations a week. Three hours credit. Dr. Riecken.

61. Embryology.—Development of vertebrates in embryo. One lecture recitation and one four-hour laboratory a week. Prerequisite: Biology 21-22 and 42. Given in alternate years. Three hours credit. Dr. Riecken.

62. Physiology and Clinical Laboratory Methods.—Physiological processes of the cell and functions of the organs in vertebrates. Laboratory includes clinical laboratory practice in blood, urine, milk, and water analysis. Prerequisites: Biology 21-22 and preferably 41. Two recitations and four hours of laboratory. Four hours credit. Dr. Girvin.

71-72. Special Problems.—One to three hours credit for each. Dr. Riecken. Dr. Girvin.

82. Taxonomy.—Laboratory and field classification of the plants with herbarium methods. Prerequisite: Biology 11. Three hours credit. Dr. Riecken.

91-92. Human Anatomy-Physiology.—A study of the bones, muscles, and organs in relation to physical development. Designed especially for those interested in Physical Education. Not for pre-medical and predental students. Three lectures a week. Prerequisite: Biology 21-22. Six hours credit.

101. Hygiene.—Personal health and care of the body, food, sanitation, diseases and contagion, vitamins, and hormones. Three hours lecture. Three hours credit.

III DEPARTMENT OF CHEMISTRY

EMERITUS PROFESSOR SULLIVAN PROFESSOR PRICE
PROFESSOR PRIDDY MR. PRESSLY

11-12. General Chemistry.—An introductory course designed primarily for students who plan to take only one science course. Not open to chemistry majors or preprofessional students. Two lecture-recitations and one laboratory period per week through both semesters. Six hours credit. Mr. Pressly.

21-22. Inorganic Chemistry.—Fundamental principles of general inorganic chemistry and applications; nonmetallic elements and their principal compounds. Introduction to organic chemistry; chemistry of metals; introduction to qualitative analyses. Three lecture-recitations and one laboratory period per week through both semesters. Eight hours credit. Dr. Price.

31-32. Organic Chemistry.—Aliphatic compounds; methods of organic analysis; and determination of formula. Aromatic compounds; and introduction to physiological chemistry. Prerequisite: Chemistry 21-22. Three lecture-recitation periods and two laboratory periods per week through both semesters. Ten hours credit. Dr. Price.

41. Qualitative Analysis.—The theory and practice of inorganic qualitative analysis according to semi-micro methods. Mass action law, chemical equilibrium, solubility product principle, and modern theory of electrolytes. Prerequisite: Chemistry 21-22. Two lecture-recitation periods and two laboratory periods per week. Four hours credit. Dr. Priddy.

42. Organic Qualitative Analysis.—Identification of organic compounds and mixtures of organic compounds. Prerequisite: Chemistry 31-32. Two lecture-recitation periods and two laboratory periods per week. Four hours credit. Dr. Price.

61. Physical Chemistry—A one semester introductory course designed to meet the needs of pre-medical students. Required of all majors. Gas Laws, Properties of Liquids, Properties of Solutions, Chemical Kinetics, Catalysis, and Colloidal Solutions. Prerequisite: Chemistry 21-22. Three lecture-recitation periods and one laboratory period per week. Four hours credit. Dr. Price.

62. Physical Chemistry—A one semester advanced course designed to meet the needs of majors who plan to go to graduate school. Atomic Structure, Thermodynamics, Thermochemistry, Equilibrium, Phase Rule, and Electrochemistry. Prerequisite: Chemistry 61 and Calculus. Three lecture-recitation periods and one laboratory period per week. Four hours credit. Dr. Price.

71. Quantitative Analysis.—Theory and practice of inorganic quantitative analysis. Gravimetric and volumetric methods with unknowns in acidimetry and alkalimetry; oxidation and reduction; iodimetry; and precipitation methods. Prerequisite: Chemistry 21-22. Two lecture-recitation periods and two laboratory periods per week. Four hours credit. Dr. Price or Dr. Priddy.

72. Advanced Quantitative Analysis.—Analysis of water, fuels, and commercial products. Properties of engineering materials. Prerequisite: Chemistry 71. Two lecture-recitation periods and two laboratory periods per week. Four hours credit. Dr. Price or Dr. Priddy.

101-102. Special Problems.—One, two, or three hours credit for each. Dr. Price and Dr. Priddy.

IV DEPARTMENT OF ECONOMICS AND BUSINESS ADMINISTRATION

PROFESSOR WALLACE — PROFESSOR BERRY
INSTRUCTOR HOLLOWAY — MR. NELSON

The objectives of the Department of Economics and Business Administration are: (1) to equip students with a more adequate understanding of modern economic society in order to assist them in becoming intelligent citizens of the communities in which they live; (2) to provide a thorough basic foundation for specialized graduate or professional study; and (3) to give students who expect to enter the business world a broad background and some of the fundamental information and viewpoints which will contribute to success and happiness in their later lives. In all courses the social viewpoint of the general welfare of society is emphasized, and the relationships among individual, group, and social welfare are pointed out.

11. Modern Economic Society.—A description of the basic institutions and practices of the modern economic world, with some emphasis upon their historical development and their relation to current political and social problems. This course attempts to equip students with some of the fundamental concepts and terminology of the field. Not open to students who have previously received credit in Economics 21-22 or the equivalent. First semester. Three hours credit. Dr. Berry.

12. Economic Geography.—A survey course covering the distribution of basic resources throughout the world, with special attention to population, minerals, plants, animals, climate, physiography, international trade, and causes of international conflict. Second semester. Three hours credit. Dr. Berry.

21-22. Economic Principles and Problems.—This is the introductory course, designed to provide a general survey of the subject for those who take but one course in the field and to prepare others for advanced courses. Throughout the year. Six hours credit. Dr. Berry.

31-32. Introduction to Accounting.—A lecture and laboratory course suitable for both the general student of economics and business and the student who expects to do advanced work in Accounting. Required for a major in Economics. Throughout the year. Two lectures and one laboratory period per week. Six hours credit. Prerequisite or corequisite: Economics 21-22. Dr. Wallace.

41. Personal Finance.—A non-technical course consisting of a study of the problems which every individual must face in managing his personal income: budgeting; record keeping; savings and investments; life insurance; home ownership; installment buying and other forms of consumer credit; sources of information and protection in connection with the selection and purchase of commodities. No prerequisite. First semester. Three hours credit. Dr. Wallace.

42. Public Finance.—A study of the expenditures, revenues, and borrowings of federal, state, and local governments. Special emphasis is placed on the effects of different types of taxes and on the significance of the national debt in the American economy. Offered in alternate years, including 1949-50. Prerequisite: Economics 21-22. Second semester. Three hours credit. Dr. Berry.

51. Business Law.—This course is designed to acquaint students with the basic legal problems with which nearly every individual must at some time come in contact, to equip them to take elementary measures for protection of their legal rights in order to prevent litigation from arising, and to enable them to recognize situations in which the advice of an attorney is necessary. Topics covered include contracts, bailments, sales, real property, and personal property. Prerequisite or corequisite: Economics 21-22. Three hours credit. Dr. Wallace.

52. Business Law.—A continuation of Economics 51. Topics covered include agency, negotiable instruments, partnerships, and corporations. Prerequisite: Economics 51. Second semester. Three hours credit. Dr. Wallace.

61. Money, Banking, and Credit.—A study of the financial organization of our economic system, with emphasis on the part played by commercial, investment, and consumer credit in the production as well as the exchange of goods. Prerequisite: Economics 21-22. Offered in alternate years. Not offered in 1949-50. First semester. Three hours credit. Dr. Berry.

62. Business Finance.—A comparison of individual proprietorships, partnerships, and corporations, and of the different types of corporate securities, with major emphasis on methods of providing fixed and working capital for promotion, operation, and expansion of corporations. Prerequisite: Economics 21. Offered in alternate years. Not offered in 1949-50. Second semester. Three hours credit. Dr. Wallace.

71. Mathematics of Finance.—Same as Mathematics 71. Dr. Warren.

72. Statistics.—Same as Mathematics 72. Dr. Warren.

81. Intermediate Accounting.—A continuation of corporate accounting with major emphasis on the content, valuation, and presentation of the principal balance sheet items. Prerequisite: Economics 31-32. Offered in alternate years, including 1949-50. First semester. Three hours credit. Mr. Nelson.

82. Advanced Accounting.—A continuation of Economics 81, with major emphasis on accounting for consignments and installment sales, the treatment of asset, liability, and net worth reserves, analysis of financial statements, and special attention to consolidated statements. Prerequisite: Economics 31-32. Offered in alternate years, including 1949-50. Second semester. Three hours credit. Mr. Nelson.

91. Prices.—A course designed particularly for juniors and seniors who are majoring in Economics. It deals with the significance and functions of prices in a capitalistic society and in alternative forms of economic systems; the causes and effects of major price movements of the past; the price making process under conditions of competition, monopoly, and monopolistic competition; efforts at government regulation of prices in surplus industries and in public utilities; and the lessons of wartime experience in the price control and rationing of consumer goods. Prerequisite: Economics 21-22 and consent of instructor. Offered in alternate years. Not offered in 1949-50. First semester. Three hours credit. Dr. Berry.

92. Current Economic Problems and Policies.—A course designed particularly for juniors and seniors who are majoring in Economics. The particular problems covered may vary from year to year, but will include such critical issues as the maintenance of full employment, control of cyclical fluctuations in business, tariff policy, the clash of economic progress and economic security, evolution of the capitalistic system and a comparison with alternative forms of economic organization, economic causes of international conflict, and the role of government in economic affairs. Prerequisite: Economics 21-22 and consent of instructor. Offered in alternate years. Not offered in 1949-50. Second semester. Three hours credit. Dr. Berry.

101-102. Advanced Economic Theory and History of Economic Thought.—A course designed particularly for juniors and seniors who are majoring in Economics. It deals particularly with the theories of value and distribution, tracing the development of these and other theories through the writings of outstanding economists of modern times. Prerequisite: Economics 21-22 and consent of instructor. Offered in alternate years, including 1949-50. Throughout the year. Six hours credit. Dr. Berry.

111. Cost Accounting.—A thorough consideration of the basic principles of cost accounting and their practical application, including process, job order, and standard cost procedures. Special attention is given to the use of cost information in the administration and management of business enterprises. Prerequisite: Economics 31-32. Offered in alternate years. Not offered in 1949-50. First semester. Three hours credit. Mr. Nelson.

112. Auditing.—A standard course covering the theory and practice of auditing, with special attention to the preparation, organization, and interpretation of audit reports. Prerequisite: Economics 31-32. Offered in alternate years. Not offered in 1949-50. Second semester. Three hours credit. Mr. Nelson.

121. Marketing.—A study of marketing agencies, functions, and costs, with major emphasis on retail merchandising and the marketing of

agricultural products. Some of the topics covered include channels of trade and transportation, competitive and monopolistic elements in marketing, market research, advertising, standardization of consumer goods, chain store distribution, and cooperative marketing. The viewpoint of society is stressed, and the course concludes with a critical appraisal of present marketing methods and a consideration of proposals for improvement of the existing marketing organization. Prerequisite: Economics 21-22. Offered in alternate years, including 1949-50. First semester. Three hours credit. Dr. Berry.

122. Labor Problems.—A study of the background and development of the labor movement, with major emphasis on its growth in the United States. The course includes a study of the principal policies and methods of organized labor and of the major problems of labor, such as hours of work, woman and child labor, incentives for productivity, insecurity, industrial unrest, and methods of promoting industrial peace. The viewpoint of society is stressed. Prerequisite: Economics 21-22. Offered in alternate years. Not offered in 1949-50. Second semester. Three hours credit. Dr. Berry.

SECRETARIAL STUDIES

11-12. Beginning Typewriting.—Development of basic techniques for control of the keyboard and machine parts. Some familiarity with office forms and office procedures is also acquired. Throughout the year. Machine rental and additional fee, $6.00 per semester. Two hours extra curricular credit. Mrs. Holloway.

21-22. Advanced Typewriting.—Continued development in office forms and office practice. Greater speed and accuracy in use of the keyboard and machine parts are developed. Prerequisite: course 11-12 or its equivalent. Throughout the year. Machine rental and additional fee, $6.00 per semester. Two hours extra-curricular credit. Mrs. Holloway.

31-32. Introduction to Shorthand.—The functional method is used in developing the fundamental principles of shorthand. Emphasis is placed at first on reading shorthand; dictation is introduced later, and both methods of learning are stressed. Prerequisite or corequisite: course 11-12 or its equivalent. Throughout the year. Four hours credit. Mrs. Holloway.

41-42. Advanced Shorthand.—A continuous review of the fundamental principles is provided, and a larger vocabulary and greater speed in dictation and transcription are acquired. Prerequisite: course 31-32 or its equivalent. Throughout the year. Four hours credit. Mrs. Holloway.

V DEPARTMENT OF EDUCATION

PROFESSOR HAYNES PROFESSOR MUSGRAVE

The Department of Education welcomes capable students who contemplate teaching. Those who do not intend to teach are advised not to attempt the technical courses in education. Students should consult the department head before enrolling in any course. An attempt is made to furnish definite guidance to prospective teachers concerning the courses in education that will best prepare them for their work.

Courses in education are not open to freshmen. Professional training is offered in both the secondary and elementary fields and is designed to meet all requirements for the Professional Certificates As and Ae. The courses offered in this department are approved by the State Department of Education.

21. Tests and Measurements.—A study of the nature and functions of educational and psychological measuring instruments. Additional fee, one dollar and fifty cents. Prerequisite: Psychology 11-12. First semester. Dr. Musgrave, Mr. Haynes.

22. Educational Psychology.—A study of the applications of psychology to problems of teaching and learning. Additional fee, fifty cents. Prerequisite: Psychology 11-12. Dr. Musgrave, Mr. Haynes.

31. General Methods of Teaching in High School.—This course is designed to introduce the student to the fundamental principles of learning and teaching. Prerequisite: Psychology 11-12. Three hours credit. Either semester. Mr. Haynes.

41. Directed Observation and Practice Teaching in the High School.—This course consists of directed observation, discussion of observation, planning and teaching. Additional fee, $15. Prerequisite: "C" average and Education 21 or 22, and 31. Four hours credit. Either semester. Mr. Haynes.

51. Materials and Methods of Teaching English.—Three hours credit. First semester. Mrs. Goodman.

52. Materials and Methods of Teaching Modern Languages. — Three hours credit. Second semester. Given in alternate years. Miss Craig.

61. Materials and Methods of Teaching Latin.—Three hours credit. First semester. Mrs. Coullet.

62. Materials and Methods of Teaching Mathematics.—Three hours credit. Second semester. Dr. Mitchell.

71. Materials and Methods of Teaching Science.—Three hours credit. First semester. Dr. Riecken.

72. Materials and Methods of Teaching the Social Sciences.—Three hours credit. Second semester. Mr. Haynes.

81. Principles of Secondary Education.—This course is designed to orient those students who are planning to teach in the field of secondary education to certain principles and problems of our modern high schools. Prerequisite: Psychology 11-12. Three hours credit. Either semester. Mr. Haynes.

91. Special Methods of Teaching in the Elementary School.—This course includes study of the subject matter and methods of instruction in the elementary school. Prerequisite: Psychology 11-12. Three hours credit. First semester. Mr. Haynes.

92. Principles of Elementary Education.—This course is designed to orient those students who are planning to teach in the elementary field to certain principles and problems of our elementary schools. Prerequisite: Psychology 11-12. Three hours credit. Second semester. Mr. Haynes.

101. Directed Observation and Practice Teaching in the Elementary School.—This course consists of directed observation, discussion of observation, planning and teaching. Additional fee, $15. Prerequisite: "C" average and Education 91-92. Four hours credit. Either semester. Mr. Haynes.

VI DEPARTMENT OF ENGLISH

PROFESSOR WHITE PROFESSOR STONE
ASSOCIATE PROFESSOR GOODMAN
ASSISTANT PROFESSOR HARDIN
ASSISTANT PROFESSOR MOREHEAD

English 11-12 is normally prerequisite for English 21-22. English 21-22 is prerequisite (or, in special cases, corequisite) for other courses in the department.

11. Composition.—The first semester is concentrated study of fundamentals of composition, weekly themes, and analysis of prose. Intensive reading and methods of study are stressed. Three hours credit, first semester. Mrs. Stone, Mrs. Goodman, Mr. Hardin, Miss Morehead.

12. Composition.—The second semester is a continuation of the work of the first semester involving preparation of a term paper. Selections from literature are studied and analyzed. Three hours credit, second semester. Mrs. Stone, Mrs. Goodman, Mr. Hardin, Miss Morehead.

21. English Literature.—A survey of English literature from the beginnings to the eighteenth century. The course attempts a study of the literature itself and of its historical development. Three hours credit, first semester. Dr. White, Mrs. Stone, Mrs. Goodman, Mr. Hardin, Miss Morehead.

22. English Literature.—A continuation of the study of English literature from the eighteenth century through the nineteenth. Three

hours credit, second semester. Dr. White, Mrs. Stone, Mrs. Goodman, Mr. Hardin, Miss Morehead.

31. Shakespeare.—An intensive study of Macbeth, Hamlet, and Henry IV, part one. Lectures on the plays. Careful attention to Shakespearean diction, constructions, and customs. Ten of Shakespeare's plays are required as parallel reading during the semester. Three hours credit, first semester. Dr. White.

32. Shakespeare.—An intensive study of King Lear, Othello, and the Winter's Tale. A life of Shakespeare and ten more of his plays are required as parallel reading. Three hours credit, second semester. Dr. White.

41. English Romantic Poets.—A study of the poetry and the prose of the great Romantic poets. Extensive library readings and a term paper on a special topic are required. Three hours credit, first semester. Dr. White.

42. Tennyson, Browning, and Arnold.—A study of the poetry and prose of the great Victorian poets. Library readings and papers are required. Three hours credit, second semester. Dr. White.

51. Journalism.—A fundamental course in news reporting, with practice in writing various types of news stories. To be taken as the foundation for more advanced work in journalism. Not offered 1949-50. Three hours credit, first semester. Dr. White.

52. Advanced Composition.—During the second semester the student will have much practice in the writing of feature stories, editorials, book reviews, familiar essays, and short stories. Not offered 1949-50. Three hours credit, second semester. Dr. White.

71. A Survey of English Drama.—An account of the origin and development of English drama is attempted in lectures. Forty or more dramas are required for rapid reading or for study. These dramas are typical of all ages of English dramatic history from the earliest mystery plays to the drama of the twentieth century. Three hours credit, first semester. Dr. White.

72. Modern Drama.—A study of contemporary British, American, and Continental drama. Approximately fifty plays are assigned for reading. Three hours credit, second semester. Dr. White.

81. American Literature.—A survey of American literature from the early seventeenth century through the nineteenth century. Historical background is presented as an aid to the understanding of American intellectual development. Emphasis on major movements and major authors. Elective for all students. Three hours credit, first semester. Mrs. Goodman.

82. American Literature.—A survey of American literature in the twentieth century, with emphasis on developments and trends in the fields of poetry, prose fiction, and serious prose. Elective for all students. Three hours credit, second semester. Mrs. Goodman.

92. Short Story Analysis.—Study of roots of fiction and a few early tales. Emphasis on modern stories. Three hours credit, second semester. Mrs. Goodman.

111. Literature of the Western World.—A chronological study of the literature of the Western World, by moods. Classicism, Romanticism, and Realism are considered in turn. Three hours credit, first semester. Dr. White.

121. Modern American and British Poetry.—A survey of British and American poetry since 1900. Elective for all students. Three hours credit, first semester. Mrs. Stone.

122. Background of the Novel in English.—Readings in the history and criticism of the novel in general. Analysis of specific types, trends, and styles. Intensive reading and analysis of twelve British and American novels. Elective for all students. Three hours credit, second semester. Mrs. Stone.

141. British Poetry of the Seventeenth Century.—A study of the works of the representative poets of the seventeenth century, with a special emphasis on the works of John Milton. The writings of the metaphysical and cavalier poets, as well as the works of John Dryden, will be included. Three hours credit, first semester. Mr. Hardin.

142. Pre-Romantic British Poetry.—A study of the British poetical literature of the later eighteenth century selected from the works of James Thomson through those of Robert Burns, with special emphasis given to the beginnings of the Romantic Movement. Three hours credit, second semester. Mr. Hardin.

VII THE DEPARTMENT OF FINE ARTS

PROFESSOR RUSSELL PROFESSOR ROBERTS
PROFESSOR COULLET
PROFESSOR WOLFE ASSISTANT PROFESSOR COLAIANNI
ASSISTANT PROFESSOR FIELDER
ASSISTANT PROFESSOR PENN
MR. A. J. KING MRS. W. H. TAYLOR MRS. R. L. KING

The following courses of study are offered:

Applied Music Major. Required: eighteen hours in one field of applied music; twenty-four hours in theory. A recital satisfactory to the faculty must be presented in the junior and senior years.

Theory Major. Required: Thirty hours in theory; twelve hours in applied music.

Band Direction. Required: Twelve hours in applied music; twenty-two hours in theory; Music Education 21, 22, 31, 32, 41, 42. The student is required to present a senior recital.

Minor in Music. Students majoring in other fields may secure a music minor by earning a total of eighteen hours, of which at least six must be in theory.

Teachers Licenses can be secured by music majors with the addition of the necessary Education and Music Education courses, most of which can be used as part of the student's electives.

A maximum of forty-two hours of Music and twelve hours of Art may be counted toward a degree.

Millsaps students enjoy the opportunity of participation in the Jackson Symphony Orchestra, the Jackson Opera Guild, the Jackson Little Theater, and the Jackson Art Association. They can also buy tickets at special student rates for the concerts of the Jackson Symphony Orchestra and the Jackson Music Association Series.

For the special fees on Fine Arts courses, see p. 17.

I. THEORY

T11-12. Freshman Theory. An integrated study of the harmonic basis of music by means of written exercises, sight-singing, and the use of the piano. Three class hours and two laboratory hours per week. Eight hours credit.

T21-22. Sophomore Theory. A continuation of T11-12. Three class hours and two laboratory hours per week. Eight hours credit.

T31-32. Music Appreciation. Biographical and appreciation studies in the field of music. Intended for the general college student. Will not be accepted as part of any music major. Six hours credit.

T41-42. Counterpoint. Contrapuntal writing in two, three, and four parts. Four hours credit.

T51. Formal Analysis. A study of musical form through analysis of masterpieces of music. Three hours credit.

T61. Composition. A seminar in writing for voices and for instruments. Three hours credit.

T71. Orchestration. A study of the character of each orchestral instrument and of scoring for different combinations as well as for full symphony orchestra. Two hours credit.

T81-82. History of Music. A detailed study, intended for music majors only, of the history and development of music in Europe and the United States. Four hours credit.

II. MUSIC EDUCATION

ME11. School Music Methods I. A study of current methods and materials used in the public schools at the elementary level. Three hours credit. Prerequisite: Education 22.

ME12. School Music Methods II. Current methods and materials at the secondary level. Three hours credit. Prerequisite: Education 22.

ME21-22. Band Organization. The development, organization, and training of the band in the public school. Four hours credit.

ME31-32, 41-42. Instrumental Methods. One semester each is devoted to the study of string, woodwind, brass, and percussion instruments in that order. Elementary instruction in the playing of a representative

instrument in each field; study of teaching methods and current materials. One hour credit each semester for four semesters.

ME51. Practice Teaching in Piano. Directed experience in teaching piano at the pre-college level. Class study of methods and materials. Three hours credit.

III. APPLIED MUSIC

A. Private Study

Courses are named by the name of the instrument or by the word VOICE followed by the proper letter or number from the table given below:

A-B. Elective and minor credit only. Required practice: six hours per week. May be repeated with credit as an elective only. One or two lessons per week. Four hours credit.

11-12, 21-22, 31-32, 41-42. Major and minor credit. Required practice: six hours per week. Two lessons per week. Four hours credit per year.

91-92. Class instruction. Small classes will be formed upon demand for elementary instruction. Required practice: six hours per week. One full class period per week. Two hours credit.

For entrance requirements and content of individual courses write to the Director, Department of Fine Arts, mentioning the field of interest.

B. Ensemble Courses

ENS11-12, 21-22, 31-32, 41-42. Band. Rehearsal and performance of symphonic band literature. Marching activities in connection with athletic events. Three hours per week. Extra-curricular credit: two hours per year.

ENS51-52, 61-62, 71-72, 81-82. Millsaps Singers. Rehearsal and performance of the best a cappella music. Three hours per week. Extra-curricular credit: two hours per year.

ENS91-92, 101-102, 111-112, 121-122. Symphony Orchestra. Rehearsal and performance of the standard symphonic literature in conjunction with the Jackson Symphony Orchestra. Three hours per week. Extra-curricular credit: two hours per year.

ENS131-132. Chamber Music. Practical instruction in the performance of masterpieces in the various fields of chamber music. One hour per week. Two hours credit.

ENS141-142. Piano Ensemble. Practical instruction in the performance of the standard literature for two pianos and other related combinations. One hour per week. Two hours credit.

ENS151-152. Wind Ensemble. Practical instruction in the performance of original compositions for various combinations. One hour per week. Two hours credit.

ENS161-162. Preparatory Orchestra. Rehearsal of easy to moderately difficult compositions. Intended to give practical experience to

players not eligible for the symphony orchestra. Three hours per week. Extra-curricular credit: two hours per year.

ENS171-172. Hymnology. History, evaluation, and performance of Protestant hymns. Intended for ministerial as well as music students. One hour per week. Two hours credit.

ENS 181-182. Opera Work Shop. Applied study of the history and performance of opera. Scenes from great operas are studied and performed. Two hours per week. Two hours credit.

IV. ART

A11-12. Design, color theory, water color, and composition. Individual criticism. Two three-hour periods per week. Six hours credit. Mr. Wolfe.

A21-22. Figure drawing. Group and individual instruction and criticism. Two three-hour periods per week. Six hours credit. Mr. Wolfe.

VIII THE DEPARTMENT OF GEOLOGY

EMERITUS PROFESSOR SULLIVAN
PROFESSOR PRIDDY

11. Physical Geology.—This course includes a brief study of rocks as well as the study of the mechanical and chemical effects of the atmosphere, water, heat, and life. Special attention will be given to such phases of the subject as the work of glaciers and volcanoes. Two hours lecture and two hours laboratory. Three hours credit. First semester each year, and first term, summer 1949. Dr. Priddy.

12. Historical Geology.—In addition to general historical geology, some attention will be given to economic products and to paleontology. Several geological expeditions, regularly made in the fall and spring to localities easily accessible to Jackson give the class a practical conception of this kind of surveying. The college is fortunate in being located in the midst of a region that is quite varied in geological character. Several field trips are usually taken each semester. Prerequisite: Geology 11. Two hours lecture and two hours laboratory. Three hours credit. Second semester each year, and second term, summer 1949. Dr. Priddy.

21. Mineralogy.—The purpose of this course is to classify the common minerals and rocks and to study their modes of occurrence and economic uses. Students will classify hand specimens by crystal structure, hardness, cleavage, color, luster, and specific gravity. Blowpipe analyses will give an idea of the chemical content of the common minerals. The course is an interesting elective for chemistry, physics, and mathematics majors. There are no geology prerequisites, but beginning geology, chemistry, and physics are desirable. One hour lecture and four hours laboratory. Three hours credit. First term, summer 1949. Dr. Priddy.

22. Economic Geology.—This course will involve a study of the natural resources of the United States and other countries, with consideration of their stratigraphy, development, value, and use. Prerequisite: Geology 11-12 and 21. Two hours lecture and two hours laboratory. Three hours credit. Second term, summer 1949. Dr. Priddy.

31. Geology of Mississippi.—This course will include a study of topographic maps and folios of the U. S. Geologic Survey; field observations, collection of fossils and correlation of horizons; special studies in Bulletins of the State Geological Survey and in the paleontology of Mississippi. Perequisite: Geology 11-12, 32, and 41. Two hours lecture and two hours laboratory. Three hours credit. First semester 1949-50. Dr. Priddy.

32. Structural Geology.—Structural features of the rocks composing the earth's crust, their origin, and their relations to economic geology. Geological folios and reports on the structure of oil fields will be used in laboratory. Prerequisite: Geology 11-12. Two hours lecture and two hours laboratory. Three hours credit. Second semester each year. Dr. Priddy.

41. Physiography (Geomorphology).—A more detailed treatment of land forms than provided in Geology 11. Emphasis on physical geology of the United States and especially the Coastal Plain. Topographic maps and aerial photographs are to be used in laboratory. Prerequisite: Geology 11-12. Two hours lecture and two hours laboratory. Three hours credit. First semester each year. Dr. Priddy.

42. Petroleum Geology.—A course designed to acquaint students, both men and women, with structure and stratigraphy as applied to petroleum geology. Special attention is paid to surface and sub-surface mapping, geophysical methods of exploration, and correlation of drillers and electrical logs. For practice, a Mississippi oil pool will be followed through its various stages of exploration and development. Women students should find in this course the procedure they would follow if employed by oil companies. Prerequisites: Geology 11-12 and 32. Two hours lecture and two hours laboratory. Three hours credit. Second semester 1949-50. Dr. Priddy.

51. Invertebrate Paleontology.—The principles of paleontology. Classification of invertebrates with reference to their evolutionary history and adaptation to environment. Laboratory study of the morphology and distribution of fossils. Special attention will be paid to the diagnostic fossils of Mississippi geological units. Prerequisite: Geology 11-12. One hour lecture and four hours laboratory. Three hours credit. First term, summer 1950. Dr. Priddy.

52. Vertebrate Paleontology and Paleobotany.—A study of vertebrate fossil life, especially that found in the Gulf Coast units. The last part will be devoted to paleobotany. A good course for biology majors. Prerequisite: Geology 11-12. Two hours lecture and two hours laboratory. Three hours credit. Second term, summer 1950. Dr. Priddy.

61-62. Special Problems.—Open to advanced students who have individual problems in the field or in laboratory. Prerequisites: Geology 11-12 and Geology 41 and 32. One, two, or three hours credit per semester. Dr. Priddy.

IX DEPARTMENT OF GERMAN

PROFESSOR HAMILTON
DR. COOPER MR. ROBERTS

A-1, A-2. Beginner's German.—This course is designed to give beginners the fundamentals of grammar and syntax together with easy reading exercises. Several easy short stories are read during the second semester. Dr. Hamilton, Dr. Cooper, and Mr. Roberts.

11-12. Intermediate German.—Review of grammar. The student is introduced to some of the great writers of German literature: Schiller, Freytag, Keller, and others. Six hours credit. Dr. Hamilton.

21-22. Advanced German.—Readings in the German Novelle. Also readings in Scientific German are introduced in the second semester when desirable. Six hours credit. Dr. Hamilton.

31. German Conversation.—A course in Conversation offered in combination with German 21-22 or as an independent elective course. Two hours credit. Dr. Hamilton.

32. Goethe's Faust.—A study of Goethe's life and works with especial emphasis upon Faust. Three hours credit. Dr. Hamilton.

X THE DEPARTMENT OF HISTORY

PROFESSOR MOORE PROFESSOR WHARTON
PROFESSOR FERGUSON ASSOCIATE PROFESSOR ROBISON

History courses have been so planned that the student may follow the casual relationship in human development. Upon a thorough factual foundation, emphasis is placed on the progressive organization of social, intellectual, and moral ideals of peoples and nations. In the approach to an understanding of historical phenomena, literature, religion, racial factors, economic conditions, and social institutions, as well as forms of government, will be considered.

11-12. History of Europe.—An attempt is made to show that the problems and ideals of modern nations have come to them out of the past. This is done in order that the student may intelligently approach the problems of modern life in both its national and international aspects. Three hours credit for each semester. Dr. Moore, Mr. Ferguson, Dr. Robison.

21-22. History of the United States.—A general course in American history, covering the European background of colonial life, the Revo-

lution, the Constitution, and the new government in the first semester, while in the second semester the course deals with the Civil War, reconstruction, and the history of the United States to the present time. Three hours credit for each semester. Dr. Moore, Mr. Ferguson.

31-32. Ancient History.—Emphasis is placed upon the contributions of early civilizations to modern western culture. The first semester presents the history of the Near East and Greece to the Peloponnesian War, while the second covers Hellenistic civilization, the development of the Roman Republic and Empire, and the blending of Roman culture with those of the peoples of northern Europe. Three hours credit for each semester. Dr. Wharton. Offered in alternate years, including 1949-50.

41-42. The South.—Development of the southern region of the United States from the time of discovery to the present. The first semester takes the study through the Civil War, while the second semester considers the effects of the War and Reconstruction on the social, economic, and political structure of the South, and of the development of the region's current problems. Prerequisite: History 21-22. Three hours credit for each semester. Mr. Ferguson.

51-52. Problems in Modern History.—The nature and impact of such present-day problems in international relations as Nationalism, Imperialism, Militarism, and Propaganda. The second semester continues with a study of the causes of the first and second World Wars and a broad view of the history of Europe since 1914. Prerequisite: History 11-12. Three hours credit for each semester. Dr. Moore.

61-62. Recent American History.—A topical survey of American history in which emphasis is placed upon political, economic, and social problems. Special papers on recent American history will be required. Prerequisite: History 22. Three hours credit for each semester. Dr. Moore.

71-72. Hispanic America.—Consideration of both the Colonial era and the period of the Republic. A study of the political, social, and economic characteristics established by Spain in the New World, and of the wars for independence is made during the first semester The second semester continues with a study of the development, culture, and resources of the Hispanic American nations. Special attention is given to their relations with the United States. Three hours credit for each semester.

91-92. Diplomatic History of the United States.—A study of the basic principles and events connected with American foreign policy, 1775-1947. Emphasis is placed on the development of such ideas as the Monroe Doctrine, Freedom of the Seas, Isolationism, etc. The United States' involvement in wars, especially World Wars I and II, is considered in

detail. The first semester covers the period 1775-1865; the second semester treats the years from 1865 to the present. Three hours credit for each semester.

101-102. History and Culture of the Orient.—This course seeks to provide the basic information necessary for an understanding of the development of Oriental social, political, and economic life, with particular reference to Japan and China, and special emphasis on their relations with the Western world. Three hours credit for each semester. Mr. Ferguson.

111. Special Problems.—An advanced course for students who are history majors. Three hours credit. Dr. Moore.

XI DEPARTMENT OF MATHEMATICS

PROFESSOR MITCHELL PROFESSOR WARREN
MR. ROBERTS

11. College Algebra.—The notion of functional relation in two real variables; the equation; simultaneous linear, quadratic; determinants. Elementary series. Mathematical induction, the binomial theorem, complex numbers, theory of equations. Permutations, combinations, probability. First semester. Three hours credit. Dr. Mitchell, Dr. Warren, Mr. Roberts.

12. Plane Trigonometry.—Definition of the trigonometric functions, properties, graphs, relations, identities, equatons. Analysis. Solution of right and oblique triangles, logarithmic computation. Second semester. Three hours credit. Dr. Mitchell, Dr. Warren, Mr. Roberts.

21. Plane Analytical Geometry.—Rectangular and polar coordinate systems. The straight line and the circle. The conic sections, transformations of coordinates. The general equation of the second degree. Loci and higher plane curves. Families of curves, parametric representation, fitting of empirical data. Three hours credit. First semester. Prerequisite: Mathematics 11-12. Dr. Mitchell.

22. Solid Analytical Geometry.—Rectangular coordinates in space, loci in space and planes, lines, and quadrics form the major portion of the course. Three hours credit. Second semester. Prerequisite: Mathematics 21. Dr. Mitchell.

31. Differential Calculus.—The fundamental notions of limit, infinitesimal, infinity, continuity. Differentiation of algebraic and the elementary transcendental functions. Applications. Differentials, mean value, series. Expansion of functions. Three hours credit. First semester. Prerequisite: Mathematics 21-22. Dr. Mitchell.

32. Integral Calculus.—Integration as an operation, integration as summation. The definite integral. Applications. Multiple integrals. Three hours credit. Second semester. Prerequisite: Mathematics 21-22, 31. Dr. Mitchell.

41. Mechanical Drawing.—Orthographic, auxiliary, isometric, and cabinet projections. Dimensioning. Developments. The course is concluded with airplane drafting. Three hours credit. First semester. Prerequisite: Mathematics 11-12. Dr. Warren.

42. Descriptive Geometry.—Solution of problems of points, lines, planes, and surfaces of single and double curvature. Problems in intersections and developments. The course is concluded with problems in graphic statics. Three hours credit. Second semester. Prerequisite: Mathematics 41. Dr. Warren.

51. Mechanics.—Statics: problems of equilibrium of a particle and rigid body. Three hours credit, first semester. Prerequisite: Mathematics 31-32. Dr. Mitchell.

52. Mechanics.—Dynamics of particle and rigid body. The gyroscope. Three hours credit, second semester. Prerequisite: Mathematics 31-32. Dr. Mitchell.

61. College Geometry.—Post-Euclid Euclidean Geometry: Homothetic figures, collinearity and concurrency. Geometry of the triangle and circle. Inversion. Duality. Three hours credit, first semester. Prerequisite: Mathematics 11-12. Dr. Mitchell.

71. Mathematics of Finance.—Interest and annuities. Applications to debts, bonds, capitalization, perpetuities. Elements of life insurance. Three hours credit, first semester. Prerequisite: Mathematics 11. Dr. Mitchell.

72. Business Statistics.—Tabulation and graphical representation of data. Measures of central tendency and dispersion. Time series. Indexes. Correlation. Forecasting. Three hours credit. Second semester. Prerequisite: by permission. Dr. Warren.

81. Differential Equations.—A first course in differential equations of the first and second orders, with applications to geometry, physics, and mechanics. Three hours credit, first semester. Prerequisite: Mathematics 31-32. Dr. Warren.

82. Theory of Equations.—Irrational numbers. Constructions. Algebraic solutions of the cubic and the quartic equations. Symmetric functions of the roots. Three hours credit, second semester. Prerequisite: Mathematics 21-22. Dr. Warren.

XII DEPARTMENT OF PHILOSOPHY

PROFESSOR FLEMING PRESIDENT SMITH

The courses in philosophy are designed to help the student develop a critical attitude toward life and also an appreciative understanding of life.

11. Introduction to Philosophy.—The course is designed to introduce the student to the field of philosophy, that he may learn how comprehensive the field is, and learn also how philosophy is related to life as it is lived from day to day. Three hours credit, first semester. Dr. Fleming.

12. Ethics.—A study of principles which should be used in the choosing of personal and social values. Three hours credit, second semester. Dr. Fleming.

22. Logic.—A study of the principles of valid reasoning, of how these principles are most commonly violated, and of how they can be applied to the problems of life. Three hours credit, second semester. Dr. Fleming.

31. History of Philosophy.—A survey of the development of philosophical thought in the ancient and medieval periods. Three hours credit, first semester. Not offered in 1949-50. Dr. Fleming.

32. History of Philosophy.—A survey of the development of philosophical thought from the Renaissance to the present. Three hours credit, second semester. Not offered in 1949-50. Dr. Fleming.

41. Philosophy of Religion.—A study of religious experience in its relation to the whole of life. Three hours credit, first semester. Dr. Fleming.

42. Metaphysics.—A study of the basic categories of experience and reality. Three hours credit, second semester. Dr. Fleming.

51-52. Oriental Philosophy.—A study of the philosophies of the East. One hour credit, each semester. Dr. Smith.

91-92. Directed Study in Philosophy.—The problem in the first semester will be Recent Philosophy; in the second semester, Plato's **Republic.** Three hours credit, each semester. Dr. Fleming.

XIII DEPARTMENT OF PHYSICAL EDUCATION AND ATHLETICS

McNEIL BARTLING, JR., Director of Athletics and Physical Education
MISS FRANCES DECELL, Director of Women's Physical Education

11-12M. Basic Physical Training For Men.—Two hours each week for the entire year. The course is designed to condition the student and to give basic fundamentals in all seasonal sports. One hour credit per semester. Mr. Bartling.

21-22M. Theory of High School Coaching.—Specialized course open only to men planning to enter high school coaching. This course is designed to prepare men to operate a full scale high school athletic and physical education program. Throughout the year. Three hours credit per semester. Mr. Bartling.

11-12W. Freshman Fundamentals (women).—A general course required of all freshmen. This includes the fundamentals of selected recreational sports, team sports, rhythms, golf, and tennis. Throughout the year. One hour credit per semester. Miss Decell.

21-22W. Golf (Open to upperclassmen).—Beginners' and advanced study of Golf. First and second semesters. One hour credit per semester. Miss Decell.

31-32W. Tennis (Open to upperclassmen).—Beginners' and advanced study of tennis. First and second semesters. One hour credit per semester. Miss Decell.

51-52. Horseback Riding (Open to men and women).—Classes are conducted at Stockett's Riding Academy. Extra fee charged. Course deals with the care of horses, safety in riding, and techniques of riding. First and second semesters. One hour credit per semester. Miss Decell.

41. Recreational Leadership (Open to men and women).—This course is devoted to the study of the history and development of recreation, to leadership in this field, and to selected areas of the profession such as individual, community, institutional, and industrial recreation. First semester. Three hours credit. Miss Decell.

62. Physical Education for the Elementary Grades.—The course is designed primarily for those in the teaching profession. Characteristics of the elementary school child, activities suited to the physical and mental levels represented, facilities and equipment are considered. Selected children are used for experimental purposes. Second semester. Three hours credit. Miss Decell.

82. Camp Counseling (Open to men and women).—This course deals with a study of the mental, physical, and emotional characteristics of the camp age child; the organization of a camp; the art of counseling; health; safety; and the mastery of and experience with the specific activities of the camp program. Second semester. Three hours credit. Miss Decell.

XIV DEPARTMENT OF PHYSICS AND ASTRONOMY

EMERITUS PROFESSOR HARRELL
ASSOCIATE PROFESSOR GALLOWAY

Physics

Physics 11-12 or 11A-12A is prerequisite for all other courses in Physics.

11-12. General Physics.—An elementary treatment of Mechanics, Heat, Sound, Magnetism, Electricity, and Light. Prerequisite or corequisite: Mathematics 11-12. Two lectures and one laboratory period. Six hours credit. Mr. Galloway.

11A-12A. General Physics.—An elementary treatment of Mechanics, Heat, Sound, Magnetism, Electricity, and Light. Prerequisite or corequisite: Mathematics 11-12. Three lectures and one laboratory preiod. Eight hours credit. Mr. Galloway.

21-22. Preprofessional Physics.—A laboratory course designed, in conjunction with Physics 11-12, or 11A-12A to meet the needs of those students who expect to enter professional schools where eight or ten semester hours of physics are required for admission. One laboratory period. Two hours credit. Mr. Galloway.

31-32. Problems in Intermediate General Physics.—An intermediate problem course dealing with the properties of matter, mechanics, heat, sound, magnetism, electricity, and light. Three lecture periods. Six hours credit. Mr. Galloway.

41. Mechanics and Heat.—A further study of mechanics and heat with special attention given to thermodynamics, calorimetry, and the kinetic theory of gases. The laboratory work will be devoted, in part, to the determination of the fuel value of different fuels. Two lectures and one laboratory period. Offered in alternate years. Not offered in 1949-50. Three hours credit. Mr. Galloway.

42. Light.—This course treats of the principles and laws of reflection, refraction, interference, polarization, and color phenomena. Two lectures and one laboratory period. Offered in alternate years. Not offered in 1949-50. Three hours credit. Mr. Galloway.

51-52. Electricity.—A study of electrical measuring instruments and their use in actual measurements, power stations and the distribution of power, lighting, heating, and communication. Two lectures and one laboratory period. Offered in alternate years, including 1949-50. Six hours credit. Mr. Galloway.

61-62. Special Problems.—A laboratory course designed to give the student opportunity to do work on problems in which he has developed a special interest. One to six hours credit. Mr. Galloway.

81. Photography.—A study of developing, printing, enlarging, and lantern slides. One laboratory period. One hour credit. Mr. Galloway.

Astronomy

11-12. General Astronomy.—This course will be devoted to a study of the earth, the moon, time, the constellations, the solar system, the planets, comets, meteors, the sun, the development of the solar system, and the siderial universe. Prerequisite or corequisite: Mathematics 11-12, Physics 11-12. Two lectures and one observatory period. Six hours credit. Mr. Galloway.

21-22. Practical Astronomy.—This course covers the subject of spherical astronomy and the theory of astronomical instruments with exercises in making and reducing observations. Two lectures and one laboratory period. Prerequisite, Astronomy 11-12. Offered in alternate years. Not offered in 1949-50. Six hours credit. Mr. Galloway.

XV DEPARTMENT OF POLITICAL SCIENCE

ASSOCIATE PROFESSOR ROBISON

PROFESSOR MOORE PROFESSOR FERGUSON

21-22. American Government.—A study of the principles of the American federal system of government as expressed in national, state, and local governments, their organization and functions, with emphasis upon historical development and current trends. Three hours credit each semester. Dr. Robison.

GRADES, HONORS, CLASS STANDING

GRADING SYSTEM

The grade of the student in any class is determined by the combined class standing and the result of a written examination. The examination grade is counted as approximately one-third of the grade for the semester.

"A" represents superior work, largely of a creative nature and in addition to the regularly prescribed work of the class.

"B" represents above the average achievement in the regularly prescribed work.

"C" represents the average achievement of the class in regularly prescribed work.

"D" represents a level of achievement in the regularly prescribed work of the class below the average in the same relationship as the grade of "B" is above the average.

"E" represents a condition and is changed to a "D" if the grade in the other semester of the course is "C" or above, providing that the "E" precedes the higher grade on the student's record.

"F" represents failure to do the regularly prescribed work of the class. All marks of "D" and above are passing marks and "F" represents failure.

"WP" indicates that the student has withdrawn from the course while passing, and "WF" means that he has withdrawn while failing.

"I" indicates that the work is incomplete and is changed to "F" if the work is not completed by the end of the following semester.

QUALITY POINTS

A student who makes a grade of "D" in a subject will be advanced in that subject, but a certain number of quality points is requisite for advancement from one class to the next higher class. The completion of any academic course with a grade of "C" for one semester shall entitle a student to one quality point for each semester hour, the completion of a course with a grade of "B" for the semester shall entitle a student to two quality points for each semester hour, and the completion of a course with the grade of "A" for the semester shall entitle a student to three quality points for each semester hour.

CLASS STANDING OF STUDENTS

The following number of hours and quality points are required:

For sophomore rating	24 hours;	9 quality points
For junior rating	52 hours;	36 quality points
For senior rating	90 hours;	72 quality points
For graduation	128 hours;	120 quality points

A student's classification for the entire year is on the basis of his status at the beginning of the fall semester.

HONORS AT GRADUATION

In determining honors and high honors, and all other awards based on scholarship, a quality index is arrived at by dividing the number of quality points by the number of academic hours taken.

A student whose quality point index is 2.0 for his entire course shall be graduated with Honors; one whose quality point index is 2.7 and who has a rating of excellent on comprehensive examination shall be graduated with High Honors.

To be eligible for "honors" or "high honors," a student must have passed at least sixty semester hours in Millsaps College. Honors or high honors may be refused a student who, in the judgment of the faculty, has forfeited his right.

In determining eligibility for honors or high honors in the case of students who have not done all their college work at Millsaps, the quality points earned on the basis of grades made at other institutions will be considered, but the student will be considered eligible only if he has the required index both on the work done at Millsaps and on his college courses as a whole.

DEAN'S HONOR LIST

Those meeting the following requirements are honored by inclusion on the Dean's List:

1. Scholarship:
   (a) The student must carry not less than four literary subjects during the semester on which the scholastic average is based;
   (b) The student must have a quality point average for the preceding semester of 2.00;
   (c) The student must have no mark lower than a D for the preceding semester.
2. Conduct:
   The student shall be, in the judgment of the deans, a good citizen of the college community.

REPORTS

Reports are sent at the close of each nine weeks to the parent or guardian of each student. These reports indicate, as nearly as practicable, the nature of the progress made by the student in his work at the college.

HOURS PERMITTED

Fifteen academic semester hours is considered the normal load per semester.

No student may take more than seventeen semester hours of academic work unless he has a quality index of 1.5 on the latest previous college term or semester. No student may take more than nineteen semester hours of academic work unless he has a quality point index of 2.00 on the latest previous college term or semester, and obtains permission from the Dean. No student may receive credit for more than twenty-one hours in a semester under any circumstances.

Freshmen in the lowest classification group will not be allowed to take more than twelve semester hours of academic work in their first semester except by special permission of the Dean of Freshmen.

Any student who is permitted to take more than seventeen semester hours of work will be required to pay at the rate of $5.00 for each additional semester hour over seventeen.

CONDUCT OF STUDENTS

CLASS ATTENDANCE

If a student is absent seven times in a three-hour course meeting on Monday, Wednesday, Friday or five times in a three-hour course meeting on Tuesday, Thursday, or a proportionate number in a course giving other credit, all credit in that course is lost unless five or more of the seven absences (or three or more of the five absences) were due to illness, vouched for by a physician or college official, or were approved by the Dean in advance as provided in the next paragraph below. In case of loss of credit because of excessive absence, three quality points will be deducted from the total already earned. No class absences are excused. Absences for the two days before and the two days following college holidays shall count double.

Absences from class on college business under the supervision of an authorized instructor shall not be counted against the student on loss of credit. Such absences shall be reported to the Dean of the college. This report must be made in writing, previous to the absence.

Three tardies shall be counted as one absence.

If a student is absent from an assigned test, he must obtain written permission from the Dean in order to take a make-up test.

Absence from examinations will not be excused except for sickness on day of examination (attested by a physician's certificate), or other cause which the faculty by special order may approve. An unexcused absence is counted as a total failure in the examination in which it occurs. A student whose absence from examination is excused is admitted to a special examination ordered by the faculty, to be held within six weeks of the opening of the subsequent semester.

CHAPEL ATTENDANCE

Attendance at chapel is required of all students one day each week. Students who absent themselves from chapel more than two times a semester without adequate excuse will be required to appear before the Advisory Committee for disciplinary action.

CHANGE OF SCHEDULE

A student cannot change classes or drop classes or take up new classes except by the consent of the Dean, his faculty adviser, and all faculty members concerned. Courses dropped within the first two weeks of a semester do not appear on the student's record. Courses dropped after the first two weeks and before the middle of a semester are recorded as WP (withdrawn passing) or WF (withdrawn failing). Courses dropped after the middle of a semester are recorded as failures. If a student drops a course at any time without securing the required approvals, his grade will be recorded as failure, and in addition three quality points will be deducted from the total previously earned.

WITHDRAWAL

A student desiring to withdraw from college within any term must procure permission from the Dean of the college. A withdrawal card shall be filled out and must be approved by the Dean and the Registrar.

No refund will be considered unless this written notice is procured and presented to the Business Office.

Refunds upon withdrawal will be made only as outlined elsewhere in this catalog under the heading of "Financial Regulations."

Enforced withdrawal is inflicted by the faculty for habitual delinquency in class, habitual idleness, or any other fault which prevents the student from fulfilling the purpose for which he should come to college.

The college reserves the right to cancel the registration of any student at any time. In such a case, the pro rata portion of tuition will be returned, except that students withdrawing under discipline forfeit the right to a refund for any charges.

No student who withdraws from college for whatever reason is entitled to a report card or to a transcript of credits until he shall have settled his account in the Business Office.

A student who withdraws from college after the first two weeks of a semester is recorded as WP (withdrawn passing) or WF (withdrawn failing) in each course.

AUTOMATIC EXCLUSION

To remain in college a freshman must pass in the first semester six hours of academic work.

After the first half year a student must pass at least nine hours of academic work each semester to continue in college.

Students who are requested not to re-enter because of academic failure may petition the Advisory Committee in writing for readmission, but such petition will not be granted unless convincing evidence is presented that the failure was due to unusual causes of a non-recurring nature and that the student will maintain a satisfactory record during the subsequent semester.

PROBATION

Students who pass enough work to remain in college but make in any semester a quality index of less than 0.5 will be placed on probation. Other students may be placed on probation in the discretion of the respective Deans or the Advisory Committee.

Reports of academic standing of students on probation will be secured from each instructor by the appropriate Dean at least once a month. On the basis of such reports, the appropriate Dean or the Advisory Committee may limit or prohibit the student's participation in extra-curricular activities or impose other appropriate regulations.

In order to be removed from probation, a student must make a quality index of 1.00 during a regular semester.

CONDUCT

The rules of the college require from every student decorous, sober, and upright conduct as long as he remains a member of the college, whether he be within its precincts or not.

Regulations governing the conduct of students are found in the handbook. Students are expected to familiarize themselves with the regulations.

Part V

Campus Activities

The Millsaps Singers

RELIGIOUS ACTIVITIES

Millsaps College, as an institution of the Methodist Church, seeks to be a genuinely Christian college. The faculty is made up of scholars who are Christians striving to fulfill the highest ideals of personal devotion and of community citizenship. The religious life of the college centers around the churches of Jackson and the campus Y. M. C. A. and Y. W. C. A.

The students are urged to attend a church and church school of their own denomination. A chapel or assembly of the entire college provides opportunity for worship, inspiration, and business of college-wide concern.

METHODIST CAMPUS-CHURCH RELATIONS COMMITTEE AND THE MILLSAPS CHRISTIAN COUNCIL

The Christian program of the college is coordinated with the local and general program of the Methodist Church through the Campus-Church Relations Committee. The various religious activities of the college are correlated and unified by the Millsaps Christian Council, composed of representatives of all organized religious groups on the campus. This council sponsors delegations of students to the summer conferences of the church at Lake Junaluska, North Carolina, and to the Methodist State Student Conference.

YOUNG MEN'S CHRISTIAN ASSOCIATION

The College Y. M. C. A., which was organized shortly after the college was founded, tries to strengthen the spiritual life and influence of the college and its members. The association shares vitally in the college program for the adjustment of freshmen to the Millsaps community. Delegations of members represent the association at state, regional, and Blue Ridge, North Carolina, conferences each year.

YOUNG WOMEN'S CHRISTIAN ASSOCIATION

The Y. W. C. A. provides expression for the religious interests of Millsaps women through a program similar to that of the Y. M. C. A. It holds weekly meetings devoted to the religious needs of college women, and cooperates in the orientation of new students in campus life. Representatives of the association participate in all of the conferences of the Y. W. C. A., and the Christian Student Movement.

MINISTERIAL LEAGUE

Students preparing for the Christian ministry may join the Ministerial League, which provides programs appropriate to the needs of students interested in Christian life work. Through its activities, the league provides opportunity for Christian service for its members and contributes much to the religious life of the campus and of the local churches.

DENOMINATIONAL GROUPS

Baptist students at Millsaps belong to the Baptist Student Union, which was organized in 1938.

Presbyterian students belong to the Westminster League, which was organized in 1946.

Episcopal students belong to the Canterbury Club, which was organized in 1947.

Methodist students are members of the Wesleyan Group, recently organized.

RELIGIOUS EMPHASIS WEEK

The annual Religious Emphasis Week is sponsored by all the religious groups of the campus, functioning through the Millsaps Christian Council. For this week some outstanding religious leader, familiar with student life and problems, addresses the student body and various groups of students and professors, and is available for private conference with individuals. Speakers of recent years have included Bishop W. T. Watkins; Dr. W. A. Smart, of Emory University; Dr. Marshall Steel of Texas; Dr. G. Ray Jordan, of Charlotte, North Carolina; Dr. Roy M. Smith, editor of the Chicago Christian Advocate; Dr. W. B. Selah, formerly of Oklahoma, now of Galloway Memorial, Jackson, Mississippi, and Rev. Ellis Finger of Oxford, Mississippi.

ATHLETICS

Millsaps College has maintained a consistently high athletic standard, not only in developing teams for intercollegiate competition, but in providing a well rounded program which attempts to bring every student in college into some form of athletic competition.

Purposes of the Millsaps sports program are:

1. To stimulate better personal strength and health habits through the medical examination and physical exercises.

2. To provide instruction and participation for all in a variety of clean, wholesome sports.

I. INTRAMURAL ATHLETICS FOR MEN.

In the desire to have a "sports for all" program, the college sponsors intramural activities in baseball, basketball, touch football, golf, softball, track, tennis, and volley ball.

The intramural organization is made up of members of each fraternity or independent group on the campus.

Cups are awarded to championship squads in these activities.

The athletic department offers its facilities to students and faculty for individual or group use at any time. These facilities include five tennis courts, soft ball fields, football field, running track, and gymnasium.

II. INTERCOLLEGIATE ATHLETICS FOR MEN.

An intercollegiate athletic program is provided by the college and is conducted on a purely amateur basis. The program includes football, basketball, baseball, tennis, and track. No athletic scholarships are given, and the athletes are not subsidized in any way.

III. ATHLETICS FOR WOMEN.

Women's athletics are encouraged for the reason that when properly regulated they tend to promote both the physical and moral well-being of the students and to foster a wholesome college spirit.

Millsaps does not sponsor intercollegiate athletics for women. The desire is to have a program in which all girls may participate. The intramural program satisfies this need. The sororities and the Vikings form the teams that compete in these activities, which include archery, ping-pong, volleyball, basketball, softball, golf, and tennis.

Women students are encouraged to participate in athletic activities during their leisure time. The college offers many facilities for their use —the golf course, tennis courts, archery range, the gymnasium, and others.

Women students have access to the Belhaven College swimming pool at designated hours each week.

IV. ATHLETIC FACILITIES.

(1) The gymnasium provides a large playing floor for basketball, boxing, volley ball, indoor baseball, and tennis. It has a regulation ring for boxing, mats for gymnastics, dressing rooms for all teams, a room for visiting teams, trainer's room complete with equipment for injuries, a club room for wearers of the "M," and the college store. The gymnasium has become the center of the activities of the students. (2) The baseball diamond, separate from the football field, is also used as the intramural football field. (3) Five tennis courts have been constructed near the gymnasium. (4) A very fine nine hole golf course has been built and is for use by all students.

FRATERNITIES AND SORORITIES

SOCIAL FRATERNITIES

Four national fraternities—Kappa Alpha, Kappa Sigma, Pi Kappa Alpha, and Lambda Chi Alpha—have chapters on the Millsaps campus. These social clubs maintain houses in which some of their members reside. A local fraternity—Phi Alpha—petitioning a prominent national, also operates on the campus.

During the first week of the school year, each fraternity extends invitations to new students, bidding them to membership in the organization. The new men are given an opportunity during this "rush" period to become acquainted with fraternities, and at the end of this time bids are extended and the new students are pledged. While pledging is not allowed for the first week of school, a fraternity may extend an invitation to join at any other time during the year.

SOCIAL SORORITIES

Millsaps College has four national sororities: Phi Mu, Kappa Delta, Beta Sigma Omicron, and Chi Omega.

Formal rushing for new students takes place at the beginning of the fall term and is done according to rules which the sororities have agreed upon. Informal rushing is allowed throughout the year according to the desires of the various groups.

RULES GOVERNING PLEDGING AND INITIATION

A. General Conditions.

1. No person not a bona fide student of Millsaps at initiation time can be initiated into a sorority or fraternity, except by permission of the Committee on Fraternities and Sororities.
2. Only bona fide regular students (carrying at least 12 hours) may be pledged to a sorority or fraternity.
3. A student must wait one week after his official registration before pledging to a sorority or fraternity.
4. Every student shall clear his eligibility with the Registrar before he can be initiated.

B. Scholarship Requirements:

1. For eligibility to initiation into a sorority or fraternity, a student must have earned in a preceding semester as many as nine quality points, and in the same semester as many as twelve semester hours of credit, and must not have fallen below D in more than one subject.
2. A student who drops a course after the end of the half semester shall receive an F for fraternity purposes as well as for academic averages.
3. The two terms of summer school combined shall count as one semester for fraternity purposes.

THE VIKINGS AND BARBARIANS

Vikings and Barbarians are social clubs for students who do not join Greek letter fraternities.

HONOR SOCIETIES

Eta Sigma Phi

Eta Sigma Phi is a national honor fraternity, recognizing ability in classical studies. Alpha Phi, the Millsaps chapter, was founded in December, 1935.

Pi Kappa Delta

The Millsaps chapter of Pi Kappa Delta offers membership to those who have given distinguished service in debating, oratory, or extemporaneous public speaking.

Chi Delta

Chi Delta is a local honorary literary society fostering creative writing among the women students at Millsaps. Membership includes women members of the faculty and student body who are interested in writing.

Kit Kat

Kit Kat is a literary fraternity with a selected membership of men students and faculty members who have literary ambition and ability. Monthly programs consist of original papers read by the members and criticized by the group.

Omicron Delta Kappa

Omicron Delta Kappa is a leadership fraternity with chapters in principal colleges and universities. Pi Circle at Millsaps brings together

those members of the student body and faculty most interested in campus activities, together with a limited number of alumni and supporters who plan for the betterment of the college. Membership in Omicron Delta Kappa is a distinct honor.

Alpha Epsilon Delta

Alpha Epsilon Delta is an honorary pre-medical fraternity, founded at the University of Alabama in 1926. Its purpose is to promote the interests of pre-medical students. Leadership, scholarship, expertness, character, and personality are the qualities by which students are judged for membership. Alpha Epsilon Delta strives to bridge the gap between pre-medical and medical schools.

Delta Kappa Delta

Delta Kappa Delta is an honorary pre-law fraternity recognizing ability in pre-law students. It endeavors to serve as the link between pre-law and law training.

Eta Sigma

Eta Sigma, a local honorary fraternity which recognizes excellence in scholarship, selects its members from the junior and senior classes. Membership in Eta Sigma is a coveted honor.

Alpha Psi Omega

Effective participation in "The Millsaps Players" earns membership in Alpha Psi Omega, a national honorary dramatic fraternity. This participation may be in acting, in make up, in stage management, in business management, or in costuming.

Sigma Lambda

Sigma Lambda is a women's sorority recognizing leadership and sponsoring the best interests of college life. Sigma Lambda membership is a distinctive honor.

Kappa Delta Epsilon

Kappa Delta Epsilon, a professional education sorority, promotes the cause of education by fostering high scholastic standing and professional ideals among those preparing for the teaching profession.

Theta Nu Sigma

With the purpose of furthering general interest in the sciences, Theta Nu Sigma membership is offered to second semester sophomores, juniors, and seniors who are majoring in one of the natural sciences and who fulfill certain other qualifications.

OTHER STUDENT ORGANIZATIONS

STUDENT ASSOCIATION

The Millsaps Student Association is governed by officers elected by the student body and the student executive board. The president, vice-president, and secretary-treasurer are elected annually from the student body. Members of the student executive board are chosen by the activities which they represent.

Meetings of the student executive board are held at least once a month, with other meetings called when the president considers them necessary. All members of the student body automatically become members of the Student Association.

The duties and functions of the student executive board are to act in the administration of student affairs, to cooperate with the administration in the orientation program of the college, to apportion the student activities fee, to maintain understanding between students and faculty, and to work for the benefit of the student body and the progress of the college.

THE PURPLE AND WHITE

A working laboratory for students with journalistic interests is furnished in **The Purple and White**, weekly Millsaps student publication. Active staff work earns extracurricular college credit.

"The Purple and White On The Air", a weekly radio program produced jointly with a local station, gives students experience in radio activities.

THE BOBASHELA

The Bobashela is the annual student publication of Millsaps College, attempting to give a comprehensive view of campus life. The 1948 edition is the forty-second volume of this Millsaps book. (**Bobashela** is a Choctaw Indian name for "good friend.")

THE PLAYERS

The dramatic club of the college is "The Millsaps Players", which presents two or more three-act plays each year and six or more one-act plays.

THE MILLSAPS SINGERS

The Millsaps Singers, a chorus composed of men and women students under the direction of Mr. Alvin J. King, is an important organization on the Millsaps campus.

In addition to numerous appearances in Jackson and towns nearby, the chorus takes a trip each year. On the 1949 Spring trip the Singers appeared in Texas, New Mexico, Colorado, Kansas, Oklahoma, and Louisiana, as well as in numerous cities in Mississippi.

Membership, open to freshmen and upper-classmen alike, earns two semester hours of extra-curricular credit for the year's work.

BEETHOVEN CLUB

The Beethoven Club of Millsaps College brings artists to the campus to hold master classes and give concerts. Some of the artists who have been here under the club auspices are Isabel and Silvio Scionti, Rudolph Ganz, and Percy Grainger.

THE BAND

The Millsaps Symphonic Band is open to all students who can qualify. The year's repertoire covers all phases of symphonic music. Two semester hours of extra-curricular credit are given for the year's work.

DEBATING

Since the year the college was founded, debating has occupied an important place in its activities. Millsaps teams participate in about 150 debates each year, meeting teams from the leading institutions in the South and Southwest.

Extra-curricular credit is offered for successful participation in debating, oratory, and extemporaneous public speaking.

THE INTERNATIONAL RELATIONS CLUB

The International Relations Club of Millsaps College is an endowed honorary organization which recognizes superior work in current history.

Membership is elective.

The club holds bi-weekly meetings at which timely world problems and events are discussed by student and faculty members.

MEDALS AND PRIZES

1. The Founder's Medal is awarded annually to the senior who has the highest quality index for his entire college course and has received a grade of excellent on his comprehensive examination. Only students who have done at Millsaps College all the work required for the degree are eligible for this award.

2. The Bourgeois Medal is awarded annually to the freshman, sophomore, or junior who has the highest quality index for the year. Such student must be a candidate for a degree, and must have taken a minimum of thirty semester hours of college work during the year in which the medal is awarded to him. No student can win this medal a second time.

3. The John C. Carter Medal for Oratory is awarded annually to the student who presents the best original oration in the oratorical contest. This contest, open to men and women students, is held in December of each year.

4. The Clark Essay Medal is awarded annually to that student who presents the best and most original paper in any English course in Millsaps College.

5. The Buie Medal for Declamation, open to freshmen and sophomores, cannot be awarded to any student more than once. The contest for this medal is held at commencement each year.

6. Chi Omega Award. Chi Omega sorority, seeking to further the interest of women in the social sciences, presents an award of $25.00 to the girl having the highest average for the year in the field of history, political science, psychology, sociology, economics, or other courses in the social sciences.

7. Pan-Hellenic Award. The Women's Pan-Hellenic Council makes each year a cash award of $25 to the best woman citizen of the current college year.

8. The Charles Betts Galloway Award for the best sermon preached by a ministerial student of Millsaps College is presented on Commencement Sunday. This annual award, established by Mrs. E. H. Galloway and family in honor of the late Bishop Galloway, is a medal.

HISTORY OF THE COLLEGE

With material and inspirational support from Major Reuben Webster Millsaps, the Mississippi conferences of the Methodist church resolved in 1888 to establish a college for men. Four years later, with four professors and a handful of students, Millsaps opened its doors in Jackson. Coeducation was instituted in the seventh session.

Presidents of the college have been W. B. Murrah, D.D., LL.D., (1892-1910); D. C. Hull, M.A., (1910-1912); A. F. Watkins, D.D., (1912-1923); D. M. Key, Ph.D., LL.D., (1923-1938). Dr. M. L. Smith, Ph.D., LL.D., has been president since 1938.

For the first 25 years attendance fluctuated between 100 and 200 students. By 1928-1929 Millsaps had 400 students, and during the Navy V-12 program, 600. Since the war, Millsaps has had approximately 800 students.

BUILDINGS AND GROUNDS

The campus, covering nearly 100 acres in the center of a beautiful residential section and on one of the highest points in the city, is valued in excess of one and one-quarter million dollars.

The administration building, Murrah Hall, was erected in 1914; the Carnegie-Millsaps Library building in 1926; the Sullivan-Harrell Science Hall in 1928; and the Buie Memorial Gymnasium in 1936. Recent grants and gifts have made possible the addition of completely modern equipment for the science laboratories and the extension of the library stacks.

A new and completely modern home for the President was constructed in 1949. Work is now in progress on the Christian Center Memorial Building, which was made possible by the gifts of Mississippi Methodists, alumni, and friends of the college. This building, which will cost approximately $250,000, will contain an auditorium seating more than 1000 persons, the largest stage in the city of Jackson, a small chapel and library for the Department of Religion, classrooms, and offices. A completely new system of driveways through the campus is also under construction.

The James Observatory provides excellent facilities for students of astronomy and is also made available on frequent occasions to the citizens of Jackson and surrounding areas.

Elsinore Hall houses the Music Department of the college.

The campus contains two fields for football and baseball, a track, tennis courts, and a nine-hole golf course.

Dormitory facilities are available for both men and women students. Founders and Whitworth Halls are the women's dormitories. Galloway, Burton, and Woollard Halls house men students.

Beginning with the fifty-fifth session of the college, the United States government placed on the south end of the campus thirty-two trailers and two prefabricated units to provide housing for married veterans.

FINANCIAL RESOURCES

The productive endowment, according to the last audit, amounted to $1,184,264.87. In addition to the income from this endowment, the college budget receives pro rata share of conference assessments amounting to $12,000 annually. The statement of total assets derived from the last official audit, June 30, 1948, is as follows:

Current Funds	$ 180,503.73
Loan Funds	10,335.39
Endowment Funds	1,303,381.12
Christian Center Building Funds	227,723.27
Sanders Building Funds	105,862.55
Library Building Funds	80,562.04
Special Plant Funds	69,546.00
Plant Funds	1,409,785.00
Total	$3,387,699.10

CARNEGIE FOUNDATION RESEARCH GRANT

Millsaps College has been selected as one of five colleges, with Tulane University as the center of an area including Texas, Louisiana, and Mississippi, to be the recipient of a research grant given by the Carnegie Foundation for the Improvement of Teaching. This grant amounts to $4,000 a year for five years, supplemented by $1,000 a year from the college budget. During the first two years of this grant more than twenty of the faculty have availed themselves of the opportunity to improve their teaching through special study and research work.

CARNEGIE-MILLSAPS LIBRARY

Near the close of the session of 1905-06 Andrew Carnegie offered to give the college $15,000 for a library building if the trustees would provide an endowment of an equal amount. The endowment required was given by Major Millsaps.

In 1925 the Carnegie Corporation appropriated $50,000 for a new library building. The present building was completed in 1926 and provides shelves for 50,000 volumes. The furniture for the reading rooms was given by the Enochs Lumber and Manufacturing Company. In 1944 the interior of the library was redecorated and in 1946 additional furniture was purchased.

A special grant of $10,000 for the purchase of books was made by the Carnegie Corporation during the five years 1931-1936, and about 4,600 volumes were added from this source. In 1944 the Rockefeller Foundation made a grant to the library of $15,000 for the purchase of books during the years 1944-1948. This sum was matched by the college by a like amount to be used for the enlargement and equipment of the library building. The General Board of Education of the Methodist Church provided $2,500 for the purchase of additional stacks and equipment. The income from the Martha A. Turner Fund of $1,000, founded by Mrs. J. R. Bingham of Carrollton, Miss., is used for the purchase of books in English literature. The Carnegie Foundation permits as much as $1,000 of its grant for the improvement of teaching through research to be used annually to provide books needed for research projects.

During the session of 1941-1942 the Historical Society of the Mississippi Conference placed its valuable collection of books and papers relating to Mississippi Methodist history in a special room in the library. A collection of documents, manuscripts, and books on Methodism in Mississippi has been begun, and gifts of material related to this subject will be especially valuable.

The library contains approximately 33,000 volumes.

The library hours are: Monday through Friday, 8 to 5, 6 to 9:30; Saturday 8 to 4. The library is closed during the Thanksgiving, Christmas and spring holidays, and during the month between the close of the summer school and the opening of the fall semester.
